

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

SENATE CONCURRENT RESOLUTION NO. 12.

Whereas we have received with profound sorrow the announcement of the death of Stephen Fowler Chadwick, formerly governor of this commonwealth; therefore, be it

Resolved by the Senate of the State of Oregon, the House concurring, That in the death of ex-Governor Chadwick the state of Oregon has lost one of its eminent and most patriotic citizens. Born and reared in rugged New England, the part he always took in the pioneer life and progress of the state of his adoption he loved so well, his intellectual powers, his breadth of mind and grasp of public affairs, made him one of the leaders among his fellow citizens. Over and above these faculties, his knowledge of public affairs, his wit and power, he was an affectionate, lovable man, esteemed by all who knew him, which causes him to be mourned today not only by his friends, but my many who had no personal acquaintance with him.

Resolved, That the citizens of the state of Oregon in the death of this distinguished son have lost one whose intercourse was always instructive, helpful, and kindly, whose generous impulses found their expression in many benevolent acts, and whose distinguished career and patriotic devotion to his country and state coming men may well strive to emulate.

Resolved, That the sympathy and condolence of this legislative assembly be extended to his sorrowing family, whose affliction is so much greater than ours, and whose grief can only be alleviated by Him whose sustaining arm can best support them in their irreparable loss.

Resolved, That an engrossed copy of these resolutions be sent to his family and be made a part of the records of this body.

Resolved, That when the inaugural exercises are over today, the legislature adjourn out of respect to the deceased.

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
January —, 1895. }

Mr. Speaker:

Your committee on resolutions, to whom were referred sundry concurrent and house resolutions, involving the appropriation of public moneys in the various departments of federal and state governments, and clerical aid for investigating the same, and also clerical aid for this house, beg leave to report as follows: That we have investigated into the subject matter and find that heretofore there have crept in great abuses and extravagances in what was originally intended as a beneficent provision whereby the people of the state should be properly informed concerning the management and expenditures of said public institutions, as provided by legislative enactments. We therefore deem it the duty of this legislative body, in the interest of the taxpayers of this state, to proceed with great caution and prudence in said investigations and the expenses attending the same; so, while we are in favor of all necessary expenditures which are just and proper and wherever required in said investigation, we believe that the people demand the fulfillment of our pledges for economy and retrenchment in the discharge of said duties, and that in all cases calling for investigation the same should be conducted at the least possible cost that will secure efficient examination, we respectfully recommend—

First—That the maximum compensation for so-called experts or skilled clerical service be fixed at a rate not to exceed seven dollars and fifty cents per day for each person engaged in said service, and that no such person receive compensation for a greater period than the time actually employed at such service.

Second—We find that the number of experts or skilled clerks heretofore employed has been in excess of the number actually required for efficiency in investigating the said several departments, involving the useless expenditure of large sums of public money, and incurring great expense with no corresponding benefit. We therefore recommend that not to exceed two such experts or skilled clerks be employed to investigate severally the office of secretary of state, the office of state treasurer, the office of state printer, and not to exceed one such expert or skilled clerk in each department in the investigation of the office of

superintendent of public instruction, the insane asylum, the penitentiary, and the reform school; and that special committees, under concurrent resolutions, to visit the several other state and federal institutions be not allowed any clerical aid except by the consent and approval under concurrent resolutions of both houses; and we further especially recommend that the practice heretofore existing whereby joint committees are created with a clause that they be permitted to employ necessary clerical aid be discontinued, and that in the future no clerk or aid be permitted to any committee except as hereinbefore provided.

Third—We would further recommend that in all other cases where clerical aid is required by general or special committees of this house, the compensation should in no case exceed five dollars per day for the time actually employed, and that no additional clerical aid be employed without permission of this house being first obtained by the committee desiring the same; and that in all other cases where the standing committees are required under concurrent resolutions to make an investigation or examination, the clerical work shall be performed by the regular clerks of the standing committees whenever practical.

J. M. LONG,
Chairman.

MESSAGE FROM THE GOVERNOR.

STATE OF OREGON, EXECUTIVE DEPARTMENT, }
SALEM, Oregon, }
February 22, 1893. }

To the Honorable the House of Representatives of the State of Oregon:

House bill No. 206 is herewith returned with my disapproval. It provides for an appropriation of money raised by a general tax "for the sinking of artesian wells in the several counties of the state of Oregon containing arid lands." Such an expenditure of money is neither for governmental purposes nor for the general benefit. It would be an appropriation from the general fund for a local purpose, and would therefore be unjust, if not unconstitutional. Besides, under the terms of the bill, it would be in conflict with section 8, article IX of the constitution.

I veto the bill.

SYLVESTER PENNOYER,
Governor.

Mr. Paxton moved that the bill and message be made a special order of business for tomorrow at 2 o'clock p. m.

The motion prevailed.

MESSAGE FROM THE GOVERNOR.

STATE OF OREGON, EXECUTIVE DEPARTMENT, }
SALEM, Oregon, }
February 23, 1893. }

To the Honorable the House of Representatives of the State of Oregon:

House bill No. 175, amendatory of the election law, is herewith returned with my disapproval. The present election law has only been in operation for the past two years. It has secured that which every citizen should desire—the secrecy and sanctity of the ballot. The citizens of Oregon have become familiar with its provisions, and objections plausible at the time of its enactment are pointless now after successful trial. Although doubtless not intended, the effect of the change proposed by this bill would be to destroy in a measure the secrecy of the ballot and to afford an opportunity for vote buying. This result, it is most certain, would be desired neither by the legislature nor the people. I therefore veto the bill.

SYLVESTER PENNOYER,
Governor.

Mr. Hofer moved that further consideration of the bill and message be discontinued.

Mr. Paxton moved to lay the matter on the table.

The motion prevailed.

MESSAGE FROM THE GOVERNOR.

STATE OF OREGON, EXECUTIVE DEPARTMENT, }
SALEM, Oregon, }
February 22, 1895. }

To the Honorable the House of Representatives of the State of Oregon:

I herewith return house bill No. 110 with my dissent. The purpose of this bill is similar to that of senate bill No. 108, already filed. Both provide for the protection of game and fish. But while the senate bill provides for the selection of a game and fish protector by the legislative assembly, the house bill provides for his selection by a commission thus elected. The legislature, by the provision of the house bill would thus be delegating to a commission the right to select an officer to enforce state laws, a right which it is doubtful if it possesses itself, but which, if possessed, it has no authority to delegate to others. This is a most unwarrantable departure from the true spirit of the constitution, which compels the governor to make oath that "he shall take care that the laws be faithfully executed," and which therefore confers upon him, instead of upon the legislature or upon a commissioner not recognized by the constitution, the appointment of all officers for the enforcement of state laws.

I veto the bill.

SYLVESTER PENNOYER,
Governor.

On motion of Mr. Paxton, the bill and veto were made a special order of business for tomorrow at 2 o'clock p. m.

MESSAGE FROM THE GOVERNOR.

STATE OF OREGON, EXECUTIVE DEPARTMENT, }
SALEM, Oregon, }
February 22, 1893. }

To the Honorable the House of Representatives of the State of Oregon:

I return herewith house bill No. 103 with my veto. Section 414 of the code provides liens upon real property, other than a judgment or decree, whether created by mortgage or otherwise, shall be foreclosed, and the property adjudged to be sold to satisfy the debt secured thereby by suit. It has been decided by the supreme court that this method of foreclosure is exclusive and imperative, and an attempt to prescribe a different method in the mortgage or writing creating a lien upon real property must be disregarded. The bill herewith returned prescribes an entirely new and different rule, and permits the parties to a mortgage, deed of trust, or other instrument of writing to secure the payment of money to agree therein upon any terms of sale they may desire. Such contract, when made, becomes a part of the security, and shall pass by assignment of the mortgagee or trustee, or his administrators or executors, investing such assignee with the same powers and rights as the original parties had. The act does not provide for a public sale of the debtor's property. No notice by publication or otherwise is required to be given upon breach of covenant or condition, and if not otherwise specified in the mortgage or deed of trust, the sale may be made privately and without the intervention of the court. If this bill becomes a law it permits the lender to impose such terms as he may see fit as a condition precedent to lending his money, and would enable him to sell the property of his debtor summarily and deprive him of his home without other notice than that contained in the deed of trust or mortgage.

Under the law as it now stands every man has his day in court, but the bill returned herewith deprives him of that right, if his pressing needs should ever induce him to execute such an instrument as is permitted to be framed thereunder.

SYLVESTER PENNOYER,
Governor.

Mr. Jeffrey moved that further consideration of this bill be indefinitely postponed.

The motion prevailed.

Your committee on resolutions, to whom was referred house resolution No. 8 and house joint resolution No. 2, beg leave to report that we have had the same under consideration, and respectfully report back to the house that we have deemed it advisable to prepare a new resolution, broader in its terms, upon the following grounds: *First*, the committee are of the unanimous opinion that an investigation should be held; *second*, your committee are likewise of the unanimous opinion that the investigation should be held at Salem.

Your committee would further report that we are unable to agree as to what expense the committee should be allowed to incur, but are of the opinion that some limitation should be placed in the resolution as to the power of the committee to incur ex-

pense. The committee are unanimous in their opinion that a large amount of money can be saved to the state by holding this investigation at Salem, and that the committee should not be allowed to incur any expense for traveling about the country until after they have so far progressed in the investigation that they will be able to come before the house and present an intelligent report, showing why the additional expense should be incurred, and the necessity thereof.

MESSAGE FROM THE SENATE.

SENATE CHAMBER,
SALEM, Oregon,
January 25, 1895. }

Mr. Speaker :

I am directed by the president to inform you that the senate has adopted senate joint memorial No. 1, to reimburse the city of Portland for expenses in improving Columbia and Willamette rivers.

And the same is herewith transmitted to you for the consideration of the house.

WALTER SINCLAIR,
Chief clerk.

SENATE JOINT MEMORIAL NO. 1.

To the Congress of the United States : Whereas, by an act of the legislative assembly of the state of Oregon, filed in the office of the secretary of state, February sixteenth, eighteen hundred and ninety-one, a corporation known as the "Port of Portland" was created, embracing within its limits certain portions of Multnomah county; and, whereas, the object of the creation of said corporation was to improve the Willamette river at the cities of Portland, East Portland, and Albina (now consolidated and embraced within the city of Portland, Multnomah county, Oregon,) and the Willamette and Columbia rivers between said cities and the sea, so that there should be made and permanently maintained in said Willamette and Columbia rivers, from said city to the sea, a ship channel of good and sufficient depth at all points at mean low water; and, whereas, said act incorporating said port of Portland provides for the issuance of five hundred thousand dollars in bonds or notes for a certain term of years, said bonds to bear interest at the rate of five per centum per annum, payable semiannually, all in United States gold coin; and, whereas, said act gives said corporation the authority to assess and collect taxes on all property within its boundaries which is by law taxable for state and county purposes at a certain specified rate sufficient to pay the interest on said bonds and to provide a sinking fund for the redemption of the same; and, whereas, the said corporation so created was organized, and commissioners appointed to exercise the powers conferred upon it; and, whereas, since the creation and organization of said port of Portland, the said corporation has

realized three hundred and ten thousand dollars from the sale of the bonds authorized by said act, which said money has been expended in the improvement of the said Willamette and Columbia rivers under the supervision of the officers of the United States government, and which said sum the said port of Portland commission is now obligated to pay; and, whereas, thirty-seven thousand seven hundred and twenty-nine dollars and seventy-seven cents has been paid by said port of Portland in interest on said bonds; and, whereas, the said sum, to wit, three hundred and ten thousand dollars, has been expended in the improvement of said rivers by dredging and constructing permanent dykes beyond the limits of the said district embraced within the limits of said corporation; and, whereas, the remaining portion of said money has been expended in the necessary improvement of said rivers and the harbors thereof; and, whereas, the money so expended by said corporation inures to the benefit of the state of Oregon and the country at large, and the improvements accomplished thereby are of a nature generally and properly undertaken by the general government; therefore,

Be it resolved by the legislative assembly of the state of Oregon, That congress be requested to reimburse the port of Portland in the full sum or the amount expended by the said port of Portland in making the improvements aforesaid, and in paying interest on the bonds heretofore issued for such purpose, and that provision be made by the general government for the payment of the interest yet to accrue on said bonds now outstanding.

Be it further resolved, That the government of the United States assume full charge of the work heretofore completed and now being performed by said port of Portland, and provide for the maintenance of the same.

Mr. Paxton moved to amend by adding thereto the following:

AMENDMENT.

Be it further resolved, That a copy of this joint memorial be properly attested and sent to each of our senators and members in the house of representatives in congress for presentation to the senate and house of representatives of the United States.

HOUSE CONCURRENT RESOLUTION NO. 20.

Resolved by the House, the Senate concurring, That two on the part of the house and one on the part of the senate be appointed as a committee, with authority to investigate the salmon and fish industries of the Willamette and Columbia rivers, and ascertain wherein the present law regulating the fish industry of the state of Oregon is defective, and to make and report to the legislature, at the earliest possible date, as to what means should be taken for the promotion of the fish industry, and the preservation of fish during the season of propagation; *provided*, the cost of said investigation shall not exceed twenty dollars.

The resolution was referred to the committee on resolutions.

Mr. Gates introduced house concurrent resolution No 21.

HOUSE CONCURRENT RESOLUTION NO. 21.

Whereas grave and serious charges have been made through the public press, and by direct allegation by individuals claiming to have personal knowledge, that the school, lieu, and swamp lands are largely handled by a syndicate instead of going to the people and being utilized by actual settlers, and contrary to the spirit of the law of the state of Oregon; be it

Resolved, That a joint committee, consisting of three members of the house and two members of the senate, be appointed to investigate as to whether or not the school lands of this state are largely passing into the hands of syndicates, and as to whether or not any persons are attempting to control the disposal of the same, and to report to this house at the earliest possible date the result of said investigation.

The resolution was referred to the committee on resolutions.

Mr. Boothby introduced house joint memorial No. 3.

HOUSE JOINT MEMORIAL NO. 3.

To the Congress of the United States: Whereas this country is in serious difficulty at present, owing largely to the appreciation of the standard money of the country, and because of the nonuse of silver as a money of redemption, which was in 1873 unjustly and without excuse relegated as a money metal to a small sphere, reducing its value as compared with gold, appreciating gold debts and depreciating lands, the products of farms, range, etc., reducing the price of labor, and wrecking the prosperity and happiness of a great majority of the American people; and whereas the United States takes the lead of any one nation in the production of silver, producing nearly one half of the entire world's output; therefore, be it

Resolved by the legislative assembly of the state of Oregon, That our delegation in congress be instructed to labor earnestly for the restoration of silver to its former high position as a money of redemption, by at least giving the product of our mines the right of free and unlimited coinage, at no greater ratio than sixteen to one, protecting the product of our own silver mines, and the best interests of the people by placing upon all imported silver a high protective tariff.

Resolved, That upon the passage of this memorial, a copy thereof shall be presented to our senator in Salem, and one each to our senator and representatives in Washington.

The memorial was referred to the committee on resolutions.

Mr. Myers introduced house concurrent resolution No. 22.

HOUSE CONCURRENT RESOLUTION NO. 22.

Resolved by the House, the Senate concurring, That a committee of three from the house and two from the senate be appointed to visit the penal, reformatory, and charitable institutions of the state, and report to both houses of the legislature.

The resolution was referred to the committee on resolutions.

Unanimous consent being given, Mr. Blundell introduced house joint memorial No. 4.

HOUSE JOINT MEMORIAL NO. 4.

Whereas the legislative assembly of the state of Oregon, at its sixteenth biennial session, memorialized the president of the United States to withdraw from the operation of the public land laws and reserve from settlement the crest of the Cascade mountains; and whereas the president of the United States, pursuant to said memorial, did, on the twenty-eighth day of September, 1893, issue a proclamation whereby a large portion of the lands lying west of the summit of the Cascade mountains was set apart as a timber reserve; and whereas said reserve includes much land upon which settlement has already been made and much more land that is susceptible of settlement and cultivation; and whereas said reservation subserves no useful purpose and largely reduces the area of public lands within the state of Oregon for settlement under the homestead laws of the United States; and whereas certain parties who have for years controlled the selection of indemnity school lands within the state, and who have made purchasers of said lands pay several times the amount realized by the state therefor, will use the sixteenth and thirty-sixth sections of each township within the said reservation as a basis from which to secure indemnity school lands in other portions of

the state and thereby secure large tracts of valuable lands to be held by them for speculation purposes and against the best interests of the people of the state; therefore, we, the legislative assembly of the state of Oregon, hereby memorialize the president of the United States and urge that the proclamation and order of the president, made on the twenty-eighth day of September, 1893, setting apart certain lands along the Cascade mountains in Oregon be revoked, and the lands therein described be restored to settlement under the land laws of the United States.

HOUSE JOINT MEMORIAL NO. 6.

By the House of Representatives of the Legislative Assembly of Oregon, the Senate concurring — To the Congress of the United States: We, your memorialists, respectfully represent,—That during the years 1855 and 1856 war was made upon the white settlers of the territories of Oregon and Washington, which, though known locally as the Yakima and Rogue-river wars, respectively, was in fact a collusive effort on the part of the native race to exterminate the American settlers of the north Pacific coast, during which volunteers were called out to assist the regular soldiers of the United States, and men and property were furnished by the settlers of Oregon and Washington (as found by a commission appointed by act of thirty-fourth congress, chapter CXXIX, section 11,) to the aggregate amount of six million eleven thousand four hundred and fifty-nine dollars and thirty-six cents. That this sum found due by the commission, consisting of Gen. Rufus Ingalls, U. S. A., Capt. A. J. Smith, U. S. A., and L. F. Grover, since governor of Oregon and United States senator, was scaled down arbitrarily and unjustly by the third auditor of the United States treasury, the full difference between the prices of labor and property on the Pacific and Atlantic sides of the continent at that time to the scales of the latter, thus withholding the sum of three million two hundred and ninety-six thousand six hundred and forty-three dollars and eighty-one cents lawfully and justly due the people of Oregon and Washington for the services rendered and property furnished.

The following is section 4 of an act passed by the Oregon territorial legislature at its session of 1855-6, fixing the rate of pay for the volunteers called for, shows the local valuation of the services and property:

Section 4. Whenever such volunteers are called and received into the service of the territory by virtue of this act, each non-commissioned officer and private shall be entitled to receive two dollars per day and rations, and two dollars per day for the use and risk of his horse and equipments, except for horses actually killed in action, unavoidably lost or reported unfit for service and turned over to the quartermaster, in which case the owner shall receive the appraised value thereof. And all commissioned

officers shall receive the same pay as officers of the same rank in the army of the United States; *provided*, that commissioned officers shall receive the same pay for use and risk of horses as non-commissioned officers.

The act of which the above is an extract, contained an emergency clause, and the men who responded to the call were mainly of the patriotic frontier class, to whom the wealth-winners of the nation are much indebted. They are now nearing the end of life and only ask at your hands what was found to be justly due and arbitrarily and unjustly withheld. The men thus served are many of them old and needy, and can therefore add necessity to their plea for justice. Moreover, they do not understand why, as soldiers, they are not as well entitled to pensions and land warrants for services rendered and risks incurred as any other soldier of the republic.

We would also submit that the soldiers who served in the Cayuse war of 1847 and 1848 under the provisional government of Oregon, should receive pension on the same basis as the soldiers of the Mexican war.

In the preparation of a bill in accordance with the prayer of this memorial, our delegation in congress is respectfully requested to make provision for the payment of any sum of money that may be awarded by this act, direct to each individual for whom it is intended, by the issuance in each case of a treasury warrant, payable to the order of each person above named or their assigns; said warrants to be forwarded to the treasurer of the state of Oregon, to be handed to such person upon satisfactory proof that he or she is the person for whom the said warrant is intended.

Whereas the subjects of the foregoing claim are preferred by men widely scattered, and are, therefore, unable to present their claims as individuals in the court of claims; therefore,

Resolved, That our representatives in congress be forwarded each a copy of this memorial, and asked their earnest service in securing the justice herein prayed for.

On motion of Mr. Rinearson, the memorial was adopted.

MESSAGE FROM THE SENATE.

SENATE CHAMBER,

Mr. Speaker:

I am directed by the president to inform you that the senate

has passed senate joint memorial No. 3, to have Indian war veterans pensioned.

And the same is herewith transmitted to you for the consideration of the house.

WALTER SINCLAIR,
Chief clerk.

SENATE JOINT MEMORIAL NO. 3.

Whereas during the years of 1847 and 1848 the pioneer settlers of the territory now embraced in the states of Oregon, Washington, and Idaho, and then under a provisional government, organized by the settlers, were called upon to face a general Indian war, and to prevent the annihilation of the whites,—residents within that territory. This war, known as the Cayuse war, was fought to a successful termination by said settlers, and with arms, ammunition, horses, equipment, and provisions furnished by themselves through a winter campaign in which they suffered untold hardships through lack of proper equipment and food. These men were not regularly mustered. The lack of that formality was due to the fact that no qualified officers of the United States were existent in the territory to administer the proper forms, and, furthermore, the emergency of the situation called for immediate action. Proper official and authentic muster rolls and returns are existent upon the files of the secretary of the state of Oregon; and whereas during the years of 1855 and 1856 the settlers were again called upon to protect the settlements upon both the Yakima and Rogue rivers from the savages; and whereas these services, expenses, and hardships, so incurred by these pioneer settlers, as above stated, resulted in the prevention of the horrible massacres, if not annihilation, that otherwise would have resulted but for the prompt and efficient action on the part of these brave men; therefore, the senate and house of representatives of the state of Oregon, in legislature assembled, respectfully memorialize the honorable senate and house of representatives of the United States, and request them to enact a law, or to insert and include in any act which is now or which may be hereafter before that honorable body granting a pension to any person or persons for services during any of the wars of the United States, the names of those men who were engaged in the Indian wars of 1847 and 1848, known as the Cayuse war, and of 1855 and 1856, known as the Yakima and Rogue-river war, as shown by records, muster rolls, and returns on file in the office of the secretary of state of Oregon, whereby pensions shall be granted to those who fought in said Indian wars equal in amount to those pensions granted to Mexi-

can war soldiers. And we further request our senators and representatives in the congress of the United States to use any and all honorable means to secure a pension to the men herein mentioned. The secretary of state is hereby ordered to send three certified copies of this memorial to each of the senators and representatives of this state in the congress of the United States, and to the chief clerks of the United States senate and United States house of representatives.

On motion of Mr. Wright, the memorial was referred to the committee on federal relations.

February 1, 1895. }

To the Honorable the House of Representatives of the State of Oregon:

On the twenty-eighth day of September, 1893, by proclamation of the president of the United States the Cascade range forest reserve was established in the state of Oregon, within which there are said to be, in round numbers, four million five hundred thousand (4,500,000) of acres of government land that is withdrawn from the market. Prior to the issuance of such proclamation, Oregon was entitled to two sections in every township of this tract of mountain land for school purposes. With the establishment of the reservation, Oregon became entitled to lieu lands, to be selected at pleasure from any unclaimed government lands in the state. It will be seen, therefore, that the creation of this reservation has taken from the state nearly two hundred and fifty thousand (250,000) of acres of land, much of which is worthless, and given it in lieu thereof a like amount of the best government lands to be found.

Under the law, as at present administered, the school fund realizes only one dollar and twenty-five cents (\$1.25) per acre, at which rate but three hundred and twelve thousand dollars (\$312,000) could possibly be realized from the sale of such lands. There is no property intrusted to the state more sacred than the school fund, and every effort should be made to increase and protect it.

To this end I would suggest that it is advisable that a law should be passed providing for the selection, appraisement, and sale of all lieu lands, fixing the minimum price at not less than two dollars and fifty cents (\$2.50) per acre.

WM. P. LORD,
Governor.

SENATE JOINT MEMORIAL NO. 5.

To the Honorable Senate and House of Representatives of the United States in Congress assembled: Your memorialists, the legislative assembly of the state of Oregon, hereby respectfully represent,—Whereas, the even sections of public lands within the limits of the congressional land grants in aid of the construction of railroads were sold by the government at two dollars and fifty cents an acre, on account of the supposed increase of their value, which would be caused by the construction of the roads in aid of which the grants were made; and, whereas, the congress of the United States has forfeited all the unearned portions of railroad land grants, has fixed the price of the forfeited odd sections at one dollar and twenty-five cents an acre, and has reduced the price of the even sections within said grants to one dollar and twenty-five cents an acre, and the consideration to purchasers of said even sections for the increase of the price paid by them has failed; and, whereas, simple justice demands that the government should refund to purchasers of the even sections within the limits of all forfeited land grants who have paid the maximum price of two dollars and fifty cents an acre, one dollar and twenty-five cents an acre of such purchase price; therefore,

Resolved, That your memorialists urge the congress of the United States to place said purchasers of even sections within the limits of forfeited railroad land grants upon an equality with other purchasers of lands within the limits of said grants, and to pass the Dolph bill, which has been favorably reported from the senate committee on public lands, and is now upon the calendar of the senate, providing for the repayment to such purchasers of even sections of one dollar and twenty-five cents an acre.

HOUSE JOINT MEMORIAL NO. 7.

To the Congress of the United States: Your memorialist, the legislative assembly of the state of Oregon, would respectfully represent that,—Whereas, by an act of congress, approved March third,

in the year of our Lord one thousand eight hundred and ninety-one, entitled "An act to repeal timber culture laws, and for other purposes," that the president of the United States may, from time to time, set apart and reserve, in any state or territory having public lands bearing forests, in any part of the public lands wholly or in part covered with timber or undergrowth, whether of commercial value or not, as public reservations, and the president shall, by public proclamation, declare the establishment of such reservation and the limits thereof;" and whereas the president of the United States did, on the twenty-eighth day of September, in the year of our Lord one thousand eight hundred and ninety-three, in accordance with the powers conferred upon him by virtue of said act of congress above set forth, reserve, set apart, create and establish certain lands within the state of Oregon, to wit: The lands known as "The Cascade forestry reserve," as a public reservation, the same being exempt from sale, settlement, or homestead, as stated in the proclamation of the president; therefore, we respectfully represent to the honorable senate and house of representatives in congress assembled, that—*First*, the sole object for the creation of said reserve was for a protection of the Cascade watershed; *second*, that that portion of said "Cascade forestry reserve" south of township thirty-two (32) south, Willamette meridian, in Klamath county, Oregon, is absolutely unnecessary for the protection of said watershed, as much of it consists of swamp and agricultural lands lying along the Upper Klamath lake; *third*, that a large portion of Klamath county, Oregon, is now included in the Klamath Indian reservation and exempt from settlement; *fourth*, that by including such large portions of Klamath county within these reservations, great hardship has been inflicted upon the people of said county, and deters others from settling within its borders, by reason of the limited area of agricultural lands subject to settlement, homestead, and purchase; *fifth*, that said Klamath county is a new country and the people living within its limits are subject to heavy burdens, by reason of the necessary taxation levied to build bridges, roads and improve the public highways and other expenses common to a new country, and this burden is still further increased by reserving large areas of taxable lands from bearing any portion of such public expenses; therefore,

Resolved by the House, the Senate concurring, That our senators and representatives are hereby requested to use all honorable means to persuade the president to throw open for sale, purchase, settlement, and homestead all that portion of said "Cascade forestry reserve" lying, being and situate south of township thirty-two (32) south, Willamette meridian, in Klamath county, Oregon,

which said portion is more fully shown by maps hereto attached and made a part of this resolution.

And your memorialists will ever pray.

Mr. Conn moved that the joint memorial be referred to the committee on resolutions.

The motion prevailed.

MESSAGE FROM THE SENATE.

SENATE CHAMBER,
SALEM, Oregon,
February 7, 1895. }

Mr. Speaker:

I am directed by the president to inform you that the senate has adopted senate joint memorial No. 2, memorializing congress to grant a pension to Mrs. Margaret C. McKay.

And the same is herewith transmitted to you for the consideration of the house.

WALTER SINCLAIR,
Chief clerk.

SENATE JOINT MEMORIAL NO. 2.

MEMORIAL TO THE CONGRESS OF THE UNITED STATES, PRAYING FOR THE PASSAGE OF AN ACT OF CONGRESS GRANTING A PENSION TO MRS. MARGARET C. M'KAY, WIDOW OF THE LATE DR. WM. C. M'KAY OF PENDLETON, OREGON.

Whereas, Dr. Wm. C. McKay, late of Pendleton, Oregon, was in 1851, instrumental in securing the surrender of the Indian murderers of Dr. Whitman; and, whereas, at the trial of said murderers at Oregon City the Indian chiefs present invited Dr. McKay to establish a trading-post in their country, which he did near the site of the present city of Pendleton, Oregon: said post became a rendezvous of traders and travelers and was a powerful factor in restraining the restless tribes of the north-west; and, whereas, in June, 1855, Dr. McKay was secretary in behalf of the United States at the great Walla Walla council called by General I. I. Stevens, General Joe Palmer, and others, and was instrumental in securing a cession of Indian lands; and, whereas, in the autumn of 1855 the sudden influx of whites into the Indian country brought on a war in which the Indians singled out Dr. McKay as a fitting object for their revenge, and totally destroyed his post and property; and, whereas, Dr. McKay was a prominent scout in the war of 1855 and 1856, and his services were of extraordinary value to the commanding generals, who were unacquainted with Indian methods of warfare; and,

whereas, in the fall of 1856, Dr. McKay acted as guide for the expeditions of Generals Wright and Steptoe, and it was at his suggestion that the site for Fort Walla Walla was selected and a garrison established there; and, whereas, in 1866, the Snakes began to commit depredations, massacring settlers and cutting off supply-trains, and by act of the Oregon legislature Dr. McKay was asked to organize a company of Warm Spring Indian scouts to take the field against the hostile Snakes, which he did, and the doctor and his company were sworn into the United States service in October, 1866, entering the field in midwinter. In one year's time the Snakes and Piutes sued for peace, openly attributing their defeat to McKay and his scouts. The amount of life and property saved to the whites by the doctor's heroism in this hazardous campaign is beyond estimate; and, whereas, the doctor did, during his lifetime, try to secure compensation for his losses, but unsuccessfully; and, whereas, though of mixed blood, he was always a friend and helper to the whites; and, whereas, Margaret C. McKay, the widow of said William C. McKay, is a cripple, in old age and straightened circumstances; wherefore, in view of these many and valuable services to early Oregon—

Be it resolved by the Senate of the State of Oregon, the House of Representatives concurring, That our representatives and senators in congress be and they are hereby requested to exert their influence to secure the passage by congress of an act granting a suitable and adequate pension to said Margaret C. McKay, widow of said Wm. C. McKay.

The following communication was received from the Honorable the Secretary of State:—

COMMUNICATION.

OFFICE OF THE SECRETARY OF STATE, }
SALEM, Oregon, }
February 11, 1895. }

To the Honorable the Speaker of the House of Representatives:

SIR: I beg leave herewith to enclose a communication from the president of the Salem Water Company in relation to the furnishing of water for the state house, and a separate communication with reference to furnishing water for the asylum.

I have the honor to be, very respectfully, your obedient servant,

H. R. KINCAID,
Secretary of State.

COMMUNICATION.

SALEM, Oregon, January 30, 1895.

Hon. H. R. Kincaid, Secretary of State:

DEAR SIR: I wish to make the following proposition: We will

supply the asylum and penitentiary, through meters, at the rate of ten cents per one thousand gallons. This is the lowest rate we know for any such service furnished on the coast, or, in fact, almost anywhere in the country.

We have a ten-inch main running in Center street to Fourteenth street, near the end of Asylum avenue. We will attach an eight-inch main to the end of this ten-inch main at Fourteenth street and run it out to the asylum, about five thousand two hundred feet. We will there connect it with the six-inch main that the state has between the asylum and penitentiary. We will also continue the six-inch main on State street to the penitentiary, and there connect with the six-inch main between there and the asylum. This will give a complete circuit. We will put in two three-inch meters at the asylum, and two at the penitentiary, charging you precisely for what water you use at the above rate, — ten cents per one thousand gallons. This work can be done in ninety days from the time the contract is made.

The contract between the ditch company and the penitentiary gives you the right to pump what water you can through a two-inch pipe from the ditch to the penitentiary. You have your well at the asylum. The amount of water we would give you through the meters would supplement only these sources of supply, and we to be paid for what we furnish.

In order that you may understand the relation between the ditch company and the state, I herewith annex a copy of a contract made some years ago, which you will find filed in your office.

Hoping this will receive your careful consideration, I am, respectfully yours,

SALEM WATER COMPANY,
Per J. M. WALLACE, President.

Has transferred and set over, and by these present doth assign, transfer, and set over to the state of Oregon, and to its assigns, all the right, title, and interest of the said company in and to the water power on Mill creek, where said creek passes through the land of M. L. Savage in the county of Marion, state of Oregon,

together with the right which said company has under by virtue of its charter, to bring water through the land of Fredrick Yankee in said county, adjacent to the land of the said Savage, so that the said water may be used to the best advantage at such point on or near Mill creek on the land of said Savage, as the said state of Oregon, or its assigns, may select to use the same as a water power. It is expressly understood, however, that in case the said water is brought across the land of said Yankee, it shall be confined to a race or narrow channel, so as to prevent all unnecessary waste of water and that said state or its assigns shall pay all damage which it may cause in bringing in said water. It is further expressly understood that the right hereby conveyed does not include the right to use said water for the purpose of irrigation or in any other way, or for any other purpose than running machinery and for mechanical purposes, except that said state may use for such other purposes as it may choose such an amount of water as it can pump through a pipe not exceeding two inches in diameter. All other water which said state may use, by virtue of this conveyance, to be returned to Mill creek on the land of said Savage, without unnecessary waste. It is expressly understood that said company has reserved and hereby doth reserve the right to take from the flume or penstock which said state or its assigns may construct, for the purpose of using said water power, any amount of water it may choose to take, not exceeding what can be conveyed through a pipe six (6) inches in diameter, and for the purpose of taking such water from said flume or penstock, the said company is to have the right of way across any land which said state may purchase from said Savage, for laying of pipe and maintaining the same for conveying said water. This instrument is not to be so construed as to restrict the said state of Oregon in any right to the use of said water, which said state may have or acquire by virtue of ownership of the land along Mill creek.

Memorandum: The right of way referred to in this contract for laying a six (6) inch pipe through the penitentiary lands, purchased of Savage, was reserved by the Woolen Mill Company for the purpose of furnishing the city of Salem with water for domestic use, and their deeds to the different powers, viz., the woolen-mill power, the Salem flouring-mill power, and the Salem water company power, give these powers the right to take their proportional interest in this water if conveyed through pipes to Salem. This right, however, has never been used and consequently is a dead letter.

J. M. WALLACE.

COMMUNICATION.

SALEM, Oregon, January 30, 1895.

Hon. H. R. Kincaid, Secretary of State:

DEAR SIR: In accordance with your request of yesterday in our interview, I herewith send you our proposition.

We will furnish you water for the state house for all purposes as at present used, in accordance with the old contract that Hon. Geo. W. McBride claims was made with my brother before his decease, at forty dollars per month. This includes all water-closets, basins, fire protection, heating engine, and engine of printing office, and everything as now furnished and including the elevator, with the understanding, however, that the present elevator shall be replaced by another one subject to the approval of the water company, such as the Otis or Crane. The present elevator we do not care to run at any price; or, we will furnish water through a meter for the same as we have been furnishing it for the past year. The water furnished the present elevator comes from an independent pipe and can be continued or discontinued, as agreed upon between us.

The irrigation about the state house, we think, should be done through a meter, as it is as economical as any way and enables your men to irrigate at any time during the day, and not be confined to irrigation hours. The whole matter of the service of the state house, we think, can be easily adjusted between us.

The most important part of our conversation yesterday was in regard to supplying the penitentiary and asylum. The proposition for this, however, I will put in a separate letter.

Respectfully yours,

SALEM WATER COMPANY,

When presidential electors are to be voted for, there shall be printed above each of the said columns the names of the candidates for presidential electors nominated by the party or body of citizens named in the column, arranged in groups, with the party or political appellation, and the surnames of the candidates for president or vice-president at the head of each group. There shall be printed above each column of candidates of a political party a circle three fourths of an inch in diameter, and there shall be printed around, but without the circle, the following words, "For a straight ticket, mark within this circle." There shall be left at the right of the groups of candidates for presidential electors, and of the lists of candidates for other offices, or under the title of the office itself, for which an election is to be held, in case there be no candidates legally nominated therefor, as many blank spaces as there are persons to be voted for by each voter for such office, in which spaces the voter may insert the name of any person whose name is not printed on the ballot as a candidate for such office, and such insertion shall count as a vote without the cross-mark hereinafter mentioned. Whenever the approval of a constitutional amendment or other question is submitted to the vote of the people, such question shall be printed upon the ballots in a brief form, and followed by the words "Yes" and "No"; and if such question be submitted at an election of public officers, it shall be printed below the lists of candidates. The ballots shall be so printed as to give to each voter a clear opportunity to designate his choice of candidates by a cross-mark (X) in a square of sufficient size at the right of the name of each candidate and inside the line inclosing the column, and in like manner answers to the questions submitted by similar marks in squares at the right of the words "Yes" and "No"; and on the ballot may be printed instructions how to mark and such words as will aid the voter to do this, as, "Mark one," "Mark three," and the like; *provided*, that a voter may designate his choice of an entire group of candidates for presidential electors by one cross-mark in a larger square, which shall be placed at the right of the surnames of the candidates for president and vice-president at the head of such group, and such mark shall be equivalent to a mark against every name in the group; *provided further*, that a voter may designate his choice of all the candidates of a political party by one cross in the circle above such column, and such mark shall be equivalent to a mark against every name in the column, and such voter shall then be

deemed to have voted for all the persons nominated by said party as indicated by the ticket printed on such ballot, and all other names printed on said ballot shall be deemed erased and canceled. The elector may also erase from the ticket of a political party so voted by him any name or names and substitute others by writing the same in the blank spaces or by making a cross opposite the name of the persons he desires to vote for in place of the name so erased.

In all counties having a clerk of the county court, that officer shall perform the duties and stand in the place of the county clerk in the other counties.

AMENDMENT.

Add the following sections to the bill: 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, and 22.

Section 5. By the time the election notices are required to be delivered to the sheriff to be posted, the county clerk shall place the register tapes in said machines, setting said tapes at O or zero, and shall also place the record sheets in said machines, and shall furnish the guardrails, judges' tables, and other furniture and equipments necessary for the lawful conducting of the election thereat, and shall in all things have the said machines in readiness for each such polling place.

Section 6. At any time thereafter, when called upon by the sheriff, the said county clerk shall deliver said machines in complete working order, together with the necessary equipments to the said sheriff, who shall take charge thereof and deliver the same in good condition to the respective polling places by the time the polls are required to be open on election day. If for any reason the sheriff shall deliver said machines to the polling places prior to the day of election, he shall provide for their safe-keeping until the opening of the polls.

Section 7. At the time required by law for opening the polls, the judges of election shall take charge of the ballot machines provided for that polling place, and shall arrange said machines and polling places as follows: the ballot machines shall be so placed as to be at least two feet six inches from the floor and three feet from the wall of the room. Such guardrails shall be used as shall seem necessary or convenient, and shall be so placed as to separate the officers of election at least eight feet from the machine. The ballot machine and every part of the polling place, except the interior or key levers of the ballot machine, shall be in plain view of the election officers and persons outside the guardrails; and before the voting begins the judges shall publicly unlock and examine said machines and see that the same are ready for operation and that the register tapes and record sheets are properly placed therein.

Section 8. All ballots which may be used under the provisions of this act shall be provided at the public expense in the manner now provided by law. Said ballots shall be printed and in the possession of the judges of election by the time the polls are required to be open.

Section 9. The ballots shall be of heavy paper or cardboard three inches wide, and longitudinally upon the ballot shall be placed in plain, clear type, not smaller than pica, the name of the office, and underneath in a transverse direction, the candidates or nominees therefor, in plain, clear type, known as Ionic, as large as the width of the ballot will permit, and the name of the political party which nominated the candidate, and a plain and concise statement of the amendments, questions, and propositions submitted under successive captions "for" and "against." Under-

neath the title of each office shall be printed directions to the voter specifying the number of persons to be voted for for each office. The first four numbers on the ballot and keys on each machine shall be designated as "Straight ticket" numbers and keys, and each party having nominated a full and complete ticket shall be entitled to select one of the four keys above mentioned and place the space allotted to such number any party name, design, or emblem, with these words, "Press this key to vote the straight and entire——ticket." And a voter having pressed the one key so designated, shall be deemed to have voted for each and every candidate nominated under such party name, design, or emblem. If any person or nominee is a candidate by virtue of a certificate of nomination or otherwise than by convention, as provided by law, said fact shall be specified in the same manner underneath the name of such person or nominee. If two or more persons are to be elected to the same office for different terms, the term for which each is nominated shall be designated on the ballot. The candidates or nominees of the different political parties or nominating bodies, shall have placed on the margin, in such a manner as not to interfere with the name or number, a distinctive party design, emblem, or device, so that the voter shall be able to determine therefrom of which political party each person is a candidate. In case any person is a candidate by reason of having filed a certificate of nomination or otherwise than by convention, as prescribed by law, it shall not be necessary to place any device, design, or emblem on the margin of each candidate's name for the information of the voter. All such designs, devices, or emblems shall be distinguished from each other by distinctive colors. Each vote is recorded on the record sheet by means of a perforation made by the voter's pressing the key lever or push rod which corresponds in number with a similar number on the ballot. Each record sheet shall be ruled off into lines of equal spaces, and each line shall be numbered to correspond with the number on the key lever or push rod. Each record sheet shall be marked with a special number by the county clerk, who shall keep an account of each such record sheet, and of the polling place in which the same is used. Each record sheet shall be twenty-five inches wide and of such length as shall be necessary; it shall be divided by lines lengthwise, and each line shall be one half inch from the preceding line, so as to provide space for fifty lines horizontally, and distributed equally and longitudinally across the sheet; the first line across the sheet shall be traced one quarter of an inch from the left-hand edge of the sheet. Each line shall be numbered consecutively from one to fifty. Each set of numbers on the lines running lengthwise shall be six inches apart, so that each number shall occupy a

space of six inches, running transversely across the record sheet in such manner that each number on the record sheet shall be situated directly in line with and under the key levers or push rods which bear the same number, and also in the same line as the corresponding ballot number. When more than fifty keys are required by reason of the number of the candidates, nominees, or questions voted upon, exceeding fifty in number, a second machine shall be placed and fastened at the end of the first machine, so that the first number on the second machine shall be fifty-one and the last one hundred. The record sheet on the second machine shall commence with fifty-one on the first left-hand line and end with number one hundred on the last line. If more than one hundred keys be required, the same arrangement of the position of the additional machines, and the same system of numbering the record sheet belonging to such additional machine shall be adopted, as above provided, for the first and second machines. After the votes at each polling place have been canvassed, as hereinafter provided, and the machines which have been used at such polling place have been returned to the county clerk, the record sheet shall then be taken from each machine and wound on a drum or cylinder by the county clerk. In cases where more than one record sheet has been used the said sheets shall be placed on a drum or cylinder which corresponds with the number which said sheets bear. All record sheets must be kept on their respective cylinders or drums for not less than one year after each election, during which time they shall not be removed therefrom, except upon the order of a judge having jurisdiction of contested elections in said county.

Section 10. Not more than fifteen nor less than five days before the day fixed by law for the election, the county clerk shall have ten ballots for each polling place printed, containing the names of all offices and the nominees respectively therefor, properly grouped and numbered, and all questions, propositions, and constitutional or other amendments to be voted on, properly captioned, as in this act heretofore provided; said ballot to be printed upon substantial paper or cardboard. The clerk shall, when said ballots are printed as aforesaid, cause the same to be delivered to the judges of election of each voting place by the time the polls are required to open on election day; and no other ballots of any kind or cards of instruction shall be necessary under this act. The said judges shall, at the opening of the polls, place one of the said ballots so printed in each of the receptacles of the machines provided therefor, and shall conspicuously post two thereof at the polling place for the information of electors, and shall keep the same so posted while the polls are open, and shall retain the others to be used for similar purposes

in case of an emergency. The county clerk may, at any time after the said ballots have been printed, insert therein or add thereto the name of any candidate entitled to be placed thereon; *provided*, the same can be done without interfering with the names already on said ballot or the timely distribution thereof. The county clerk shall cause the keys for locking and unlocking the register compartments of the machines to be delivered to the proper judges of election at the same time and in the same manner as the ballots are distributed.

Section 11. It shall be the duty of the county court in the several counties of the state, at the regular term in January preceding the general election, to set off and establish election precincts within the county. Said court may set off and establish within such county as many election precincts as may be deemed necessary or convenient, and they shall be designated by numbers or names. For the purposes of this act there shall be but two judges of election and one clerk, to be appointed in the manner and at the time as above provided. The judges shall be of different political parties, one of whom shall be designated chairman by the court appointing such judges. Any political party may be represented at the polls by any person the party may select, but such representative shall receive no pay. He shall be sworn and have the same qualifications as the other judges. The duties of said judges and clerks shall be the same as now provided by law for judges and clerks of election, except so far as their duties are specifically prescribed in this act. It shall be the duty of the clerk to take and record the name and residence of each party offering to vote, together with such other duties as may be prescribed in this act. And the said clerk shall have the same authority as the two judges provided for in this act to decide upon any question within the authority of the said judges to decide whenever the said judges shall disagree in their decision, but not otherwise. It shall be the duty of the county clerk to notify each judge and clerk of election of his appointment, by mail, not less than thirty days before each election, together with a blank acceptance, which shall be signed by the judge or clerk receiving the same, and immediately returned to the county clerk.

Section 12. The polls being opened the voter shall pass through the opening of the outer guardrail to the judges' table. If the voter shall be entitled to vote he shall be admitted to the ballot machine, and no other voter shall be admitted until he shall have left the machine. In case any voter shall not be entitled to vote for all the offices or upon all the questions submitted at such election, the judges shall, before admitting the voter to the machine, lock or arrange said machine so that the

voter shall have access to only those keys of the machine which the said voter is entitled to vote. As soon as each voter shall have left the machine the judges shall, by pulling the releasing cord, put the machine in order for the next voter.

Section 13. Any voter who shall be totally blind or without the use of either hand sufficient to press the key lever, or physically unable to enter or leave the polling place, or who is unable to read, or who, on account of other disability, desires assistance in voting, shall call upon the judges of election for such assistance, and the said judges shall be required, when so requested by the voter, to render to the said voter such assistance and explanations as the voter asks for, but shall in no way attempt to control or influence the vote of said elector. And the said judges shall not reveal how such disabled voter voted or what occurred at the ballot machine.

Section 14. No voter shall remain at the ballot machine longer than five minutes, and if he does so he shall be requested to leave the same, and if he shall refuse to do so the judges shall remove him.

Section 15. As soon as the polls are closed the front part of the machine shall be locked. The judges shall then unlock and open the door or doors of the register compartment, and shall then without any delay lower the lever marked "A" to the "locked" position. The judges shall then read or announce, reading from right to left, beginning with the candidate or question numbered one, the result in an audible voice to the clerk of election, as shown by the counters or register tapes, and the said clerk shall record the total number of votes registered for each candidate or nominee and upon each question, proposition, and constitutional or other amendment as registered and declared by such register tapes, and such ascertainment of the result shall be taken and deemed to be the canvass of the vote at such election.

Section 16. Upon the completion of the canvass as above the clerk shall make a written statement or return list containing the names voted for and for what office, and the number of votes cast for each nominee, and the whole number of votes given for and against any question, proposition, and constitutional or other amendment voted upon; and said statement or return list shall be certified to as correct by the said clerk and judges of each polling place. And when said statement or return list shall be so certified to, the clerk shall seal the same securely and address the same with pen and ink to the county clerk. Then the said judges and clerks of each polling place shall jointly select one of their number whose duty it shall be to at once convey to the county clerk the said sealed return list and also the ballot ma-

chines used at such polling place in the same condition as the said return list and machine are received by him.

Section 17. The provisions of this act shall be liberally construed with a view to affecting the objects thereof, disregarding all departure in form or method not tending to prejudice the substantial rights of the voter.

Section 18. Nothing in this act shall be construed to prevent the purchase and use of more machines than is provided for in this act if, by reason of the redistricting of the polling places in any county in this state, more machines shall be necessary.

Section 19. Any person who shall wilfully or knowingly injure, damage, or tamper with any ballot machine or register tapes with the intent to unlawfully or fraudulently change or alter the number of votes cast for any nominee or question voted upon, shall, upon conviction thereof, be punished by a fine of not less than fifty dollars nor more than five hundred dollars, or by imprisonment in the county jail not less than three months nor more than twelve months, or by both such fine and imprisonment, in the discretion of the court.

Section 20. For the purpose of carrying out the provisions of this act, there is hereby appropriated out of the public treasury of this state, from any money not otherwise appropriated, the sum of one hundred and twenty-five thousand dollars, or so much thereof as may be necessary, and the secretary of state is hereby authorized and required to draw his warrants upon the state treasurer to pay for the said ballot machines purchased under the provisions of this act, not to exceed the said sum of one hundred and twenty-five thousand dollars; and any portion of said amount not so expended shall revert to and become a part of the general fund of the treasury.

Section 21. All acts and parts of acts in conflict with the provisions of this act are hereby repealed.

Section 22. Inasmuch as it is necessary that preliminary steps be taken and that the secretary of state order said ballot machines as soon as possible, owing to the delay that might take place in the manufacture and delivery thereof, this act shall take effect and be in force from and after its approval by the governor.

AMENDMENT.

That the following sections be added to the bill:

Section 13. Mines and mining claims, both quartz or lode, or surface, and upon the public lands, and the interests acquired therein under the laws of the United States are real property, and shall be conveyed as other real property, and shall descend to the heirs of the owner.

Section 14. The discoverer of a placer claim shall, within thirty days from the date of discovery, record his claim in the office of the officer who is recorder of deeds of the county in which said claim is situated by a location certificate, which shall contain,—*first*, the name of the claim, designating it as placer claim; *second*, the name of the locator; *third*, the date of location; *fourth*, the number of acres or feet claimed; and, *fifth*, a description of the claim by such reference to natural objects or permanent monument as shall identify the claim. Before filing such location certificate, the discoverer shall locate his claim,—*first*, by posting upon such claim a plain sign or notice containing the name of the claim, the name of the locator, the date of discovery, and the number of acres or feet claimed; *second*, by marking the surface boundaries with substantial posts, and sunk into the ground, to wit, one at each angle of the claim.

Section 15. On each placer claim heretofore or hereafter located, and until a patent has been issued therefor, not less than one hundred dollars' worth of labor shall be performed, or improvements made, by the first day of January, 1896, and by the first day of January of each year thereafter; *provided*, that the period within which the work required to be done annually shall commence on the first day of January succeeding the date of location of such claim. When two or more claims lie contiguous, and are owned by the same person, the expenditure hereby required for each claim may be made on any one claim; and upon a failure to comply with these conditions, the claim or claims upon which such failure occurred, shall be open to relocation in the same manner as if no location of the same had ever been made; *provided*, that original locators, their heirs, assigns, or legal representatives, have not resumed work upon the claim at the failure and before such location; *provided*, the aforesaid expenditures may be made in building or repairing ditches to conduct water upon such ground, or in making other mining improvements necessary for the working of such claim. Upon the failure of any one of several coöwners to contribute his proportion of expenditures required hereby, the coöwners who have performed the labor or made the improvements may, at the expiration of the year, to wit, the first of January, 1896, for the location heretofore made, and one year from the date of location hereafter made, give such delinquent coöwner personal notice in writing, or, if he be a nonresident of the state, a notice by publication in the newspaper published nearest the claim, for at least once a week for ninety days, and mailing him a copy of such newspaper, if his address be known, and if, at the expiration of ninety days after such notice in writing, or after the first publication of such notice, such delinquent should fail or refuse to contribute his pro-

portion of the expenditure required by this section, his interest in the claim shall become the property of his coöwners who have made the required expenditures.

Section 16. Whenever any person or persons are engaged in bringing water into any portion of the mines, they shall have the right of way secured to them, and may pass over any claim, road, ditch, or other structure; *provided*, the water be guarded so as not to interfere with prior rights.

Section 17. No person shall have the right to mine under any building or other improvement, unless he shall first secure the parties owning the same against all damages, except by priority of right.

Section 18. If any person shall locate a tunnel claim for the purpose of discovery, he shall record the same, specifying the place of commencement and termination thereof, with the names of the parties interested therein.

Section 19. The affidavit of labor provided herein when recorded shall be *prima facie* evidence of the performance of such labor or the making of such improvements; *provided*, that all affidavits of labor or improvements upon placer claims heretofore filed and recorded within the period prescribed in this section, which shall contain in substance the requirements of the affidavit prescribed by this section, shall be *prima facie* evidence of such labor, or the making of such improvements and the original thereof, or a certified copy of the record of the same shall be received as evidence accordingly by the courts of this state, and this class of evidence shall be receivable where relevant or material in all cases hereafter brought.

Section 20. No location certificate shall claim more than one location, whether the location be made by one or several locators; and if it purports to claim more than one location it shall be absolutely void, except as to the first location therein described, and if they are described together, or so that it cannot be told which location is first described, the certificate shall be void as to all.

Section 21. In all actions pending in any circuit court of this state, wherein the title or right of possession to any mining claim shall be in dispute, the said court or the judge thereof may, upon application of any of the parties to such suit, enter an order for the underground, as well as surface survey of such part of the property in dispute as may be necessary to a just determination of the question involved. Such order shall designate some competent surveyor not related to any of the parties to such suit, or in anywise interested in the result of the same; and upon the application of the party adverse to such application the court may also appoint some competent surveyor, to be selected by such adverse applicant, whose duty it shall be to attend upon

such survey and observe the method of making the same; said second surveyor to be at the cost of the party asking therefor. It shall also be lawful in such order to specify the names of witnesses named by either party, not exceeding three on each side, to examine such property, who shall thereupon be allowed to enter into such property and examine the same. Said court, or the judge thereof, may also cause the removal of any rock, débris, or other obstacle in any of the drifts or shafts of said property when such removal is shown to be necessary to a just determination of the question involved; *provided, however*, that no such order shall be made for survey and inspection except in open court, or in chambers, upon notice of application for such order of at least six days, and not then except by agreement of parties, or upon affidavit of two or more persons, that such survey and inspection is necessary to a just determination of the suit, which affidavit shall state the fact in such case, and wherein the necessity for survey exists, nor shall such order be made unless it appears that the party asking therefor had been refused the privilege of survey and inspection by the adverse party.

Section 22. Two years adverse possession of a mining claim, immediately preceding the commencement of an action therefor by the defendant or those under whom he holds, if pleaded, is a bar to the action for the possession thereof.

Section 23. The officer who is recorder of deeds under the law in each county shall keep in his office a record of placer or surface claim locations which shall be recorded therein and indexed in the name of the locators and the name of the claim, and no other matter shall be recorded in said record; also a record of quartz or lode claims and tunnel rights locations, which shall be recorded therein and indexed in the name of the locators and of the claim, and no other matter shall be recorded therein. For filing and recording each notice of location of a mining claim or affidavit of labor the proper officer shall exact and charge a fee of one dollar, which shall be paid in advance and turned into the county treasury. Said officer shall also keep in his office two records of proof of labor upon mining claims in which shall be recorded all affidavits of labor upon mining claims, in one that upon placer or surface claims, and in the other that of quartz or lode claims, and no other matter; said records shall be indexed in the name of the claim, the owners thereof and of the person making the affidavit.

Section 24. The laws relative to the sale and transfer of real property and the application of the liens of mechanics and laborers thereon be and they are hereby made applicable to ditches and flumes used for mining purposes and permanently affixed to the soil.

Section 25. Sections 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 3827, 3828, 3829, 3830, 3831, 3832, 3834, and 3835 of Hill's annotated laws of Oregon, and all acts and parts of acts in conflict herewith are hereby repealed.

To the Honorable the Senate and House of Representatives of the United States in Congress assembled: Whereas the source of supply of the wild fowl, such as ducks, geese, and swan, found at certain seasons of the year in the states of Oregon, Washington, Idaho, Nevada, California, and other Pacific states, is from the great breeding grounds situated in the territory of Alaska, at the mouth of the Yukon and Copper rivers, and at or near St. Michaels,

and on the mainland at or nearly opposite Kodiak island and other points; and whereas the eggs of these wild fowl are being gathered and destroyed by companies engaged in the production of albumen, neither producing to our government any revenue, from a commercial standpoint, nor leaving the eggs to hatch and replenish the game supply of the Pacific states, which is fast being depleted under these adverse conditions; and whereas the Hon. The joint committee on world's fair reported as follows:—

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
February —, 1895. }

To the Honorable the Legislative Assembly of the State of Oregon:

GENTLEMEN: Your committee appointed to investigate the workings of the Oregon world's fair commission, beg to submit for your consideration the following report:

We compared and checked up all the reports, papers, and accounts pertaining to the Oregon world's fair commission and find them correct. Vouchers upon which warrants were drawn, running from No. 1 to No. 299, inclusive, properly sworn to, O. K.'d by the prescribed officials, and audited as per law by the executive committee, accompanied with receipted bills showing for what purpose each warrant was drawn, we find are regular and

correct, showing the following totals: Warrants drawn, forty-two thousand five hundred and fifteen dollars and eighty-five cents; balance, eighteen thousand two hundred and eighty dollars and sixty-nine cents; total, sixty thousand seven hundred and ninety-seven dollars and fifty-four cents. Appropriation by the state, sixty thousand dollars; rebates and sales, seven hundred and ninety-seven dollars and fifty-four cents; total, sixty thousand seven hundred and ninety-seven dollars and fifty-four cents.

From the foregoing it will be seen there is an unexpended balance of eighteen thousand two hundred and eighty dollars and sixty-nine cents in the hands of the state treasurer.

After thoroughly investigating the claim of Mrs. Emma Giltner-White for damages sustained by the breaking of a painting on porcelain while in the hands of the Oregon world's fair commission in Chicago, your committee unanimously recommends that her claim for five hundred dollars be paid.

The reports of the several active commissioners have been carefully prepared and are descriptive of the various departments over which the commissioners had control.

The report of the secretary, C. B. Irvine, is replete with descriptive information and the transactions of the commission, and the report of the general superintendent explains the workings of the several departments of the commission at the Columbian exposition.

Taken as a whole, the reports of the several commissioners and officers are invaluable, being filled with statistical and general information relative to the undeveloped or but partially developed resources and industries of our rich state. Experiences at the world's fair among the people from all lands, who viewed the Oregon exhibits in quest of information on all subjects of interest to the home-hunter, leads to the belief that the succinct information and clear statements of fact contained in these reports would, if properly placed before those dissatisfied people residing in a state of more rigorous climate in less favored regions, prove of untold benefit to the state of Oregon in the acquisition of desirable immigration. We therefore beg to most respectfully recommend that these reports be revised and compiled, and together with historical, statistical, and descriptive information of our state's climate, government, undeveloped wealth, and rich agricultural and horticultural resources and mineral wealth, be published in pamphlet form, interspersed with illustrations of the Oregon exhibits at the world's fair, and at least twenty thousand copies be issued free,—distribution under the direction of the secretary of state,—as an immigrant's guide or handbook of Oregon, to take the place of the book compiled by the state board of agriculture and known as the "Resources of Oregon," which book is out of print.

The publication of such a volume, consisting of about one hundred and forty pages, properly illustrated, containing the revised reports of the several commissioners and officers, together with official information on public lands, cost of government, and like subjects upon which the home-seeker desires to be enlightened, will give the state a much needed official publication that must prove of great service in advertising the resources of the state, and do much good in interesting capital seeking investment and inducing people seeking homes to come to Oregon.

Your committee find that nearly all the states that exhibited their resources have printed for distribution the work done by them, and we believe the state of Oregon should not allow this opportunity to pass, but keep the work done by the commission at the world's Columbian exposition fresh in the minds of the thousands who visited the Oregon exhibits at the world's fair.

Your committee find that much valuable time has been devoted to the work and money expended by the Hon. Geo. T. Myers, as president of the Oregon world's fair commission, in making the exhibits so successful at the world's fair, and, as a mark of esteem for his economy, energy, and honesty, we recommend that a suitable souvenir be presented to the said Myers by authority of this legislative assembly.

Your committee recommend that all articles belonging to the state, returned by the commission, be distributed as recommended in house joint resolution No. 13.

Your committee recommend the adoption of house joint resolution No. 13, and there being no further business pertaining to the work, we respectfully ask to be discharged.

On motion of Mr. Blundell, the report was adopted.

The qualified electors of each judicial district shall at the general election in June, 1892, elect one of their number to serve as members of said board of equalization, who shall hold office until their successors are elected and qualified. The members of the said board shall be elected for the term of four years from and after the first Monday of July next after their election ;

provided, however, that the members of the said board elected at the general election in June, 189—, shall be divided into two classes,—those of the odd numbered districts shall constitute the first class, and those of the even numbered shall constitute the second class; and the seats of the members of the first class shall be vacant at the expiration of two years, and those of the second class at the expiration of four years from the first Monday of July next after their election, so that one half, or as near as possible, shall be chosen biennially forever thereafter. The manner of electing state boards of equalization shall be the same as that of electing circuit judges, as now provided by law; and in case of vacancies occurring in said board by death, resignation, or otherwise, it shall be the duty of the governor to appoint some one having the qualifications of an elector in the district where the vacancy occurs to fill the same until the next regular election for members of said board. And the members of the state board of equalization of this state, as provided by an act entitled "An act to provide a state board of equalization, to prescribe the manner of its creation and its powers and duties," filed in the office of the secretary of state February 21, 1891, be and the same is hereby declared to be the state board of equalization for the purposes of this act. Said board of equalization shall hold a session at the capital of the state commencing on the first Monday of September of each year. And it shall be the duty of the said board to examine the various county assessments, and to decide upon the rate of the state tax to be levied for the current year, together with any other general or special state taxes required to be levied, and to equalize the levy of said state taxes throughout the state; and the board of equalization shall apportion the amount of taxes for state purposes, as required by law, to be raised in this state among the several counties of the state in proportion to the valuation of the taxable property therein. And if the state board shall determine that the scale of valuation has not been adjusted with reasonable uniformity by the different county boards of equalization, they shall make an equalization between the various counties for the purpose of levying the state tax, and such equalization shall be made by the varying of the rate of taxation on the different counties as they shall determine necessary for the purpose of ascertaining the just amount of taxes due from each county for state purposes. The powers and duties of the state board of equalization are as follows:

When said board shall assemble at the state capitol, as provided in this act, for the purpose of equalizing assessments, they shall continue in session until they have received the abstracts of the assessment rolls of the several counties, and have computed and equalized the assessments as herein provided, and said board shall not reduce, nor shall it increase, the aggregate valuation of the several counties, except in such amounts as may be reasonable and necessary to a just equalization. Said board, in equalizing the valuation of property between the counties for the purpose of ascertaining the proportion of the said tax to be borne by each of the several counties in the state, shall consider real estate, town and city lots, and personal property, each in the same class as provided by the form furnished by the said board of equalization to the county assessors and county board of equalization. The said board, for the purpose of ascertaining the just amount of taxes due from each county for state purposes, shall add to or subtract from the aggregate value of the several kinds and classes of property of every county which they believe to be valued above or below the true and fair valuation upon which to compute the rate of taxation of the different counties; *provided*, that the said board in estimating the amount of said taxes to be levied, as provided in this act, shall not levy a tax which will raise a surplus of more than five per cent. over the amount required by the state. When the said board shall have completed their equalization, the secretary of the board shall transmit to each county clerk a transcript of the proceedings of the board, which transcript shall be tabulated by the same classification as prescribed in the forms furnished the assessor, the per centage, the increase or decrease of the different classes of property by which they estimate the true and equalized valuation of the several classes of property between the different counties, and shall, within five days after the board adjourns, specify the per cent. of tax to be levied on the state assessment roll for state purposes for the said year, and the county clerk shall extend the tax in the proper column of said rolls. Section 94. The sheriff shall give notice of the sale of real property by publication thereof once a week for three consecutive weeks, commencing the first week in September preceding the sale, in a newspaper in his county, if there be one, and if there be no paper published in his county, he shall give notice by written or printed notice posted on the door of the courthouse or building in which courts are commonly held, or the usual place of meeting of the county commissioners, for three weeks previous to the sale; such notice shall contain a notification that all lands on which the taxes of the preceding year (naming it) remain unpaid will be sold, and the time and place of the sale; and said notice must contain a list of the lands to be sold and the amount of taxes due. The county sheriff shall charge and collect, in addition to the taxes and interest and penalty, the sum of twenty cents on each tract of real property and ten cents on each town lot advertised for sale, which sum shall be paid into the county treasury and the county shall pay the costs of publication, but in no case shall the county be liable for more than the amount charged to the delinquent lands for advertising. On the first Monday of October in each year, between the hours of 9 o'clock a. m. and 4 o'clock p. m., the sheriff is directed to offer at public sale at the courthouse, or at place of holding courts in his county, or at the sheriff's office, where by law the taxes are made payable, all lands, town lots, or other real property which shall be liable for taxes of any description for the preceding year or years,

and which shall remain due and unpaid; and he may adjourn the sale from day to day until all the lands, lots, or other real property have been offered; and no taxable property shall be exempt from levy and sale for taxes. The person who offers to pay the amount due on any parcel of land for the smallest portion of the same is to be considered the highest bidder, and when such a portion constitutes a half or more of the parcel it is to be taken from the east side thereof, dividing it by a line running north and south, except that town lots are to be divided in such case lengthwise by a line parallel with the proper lines of the lots. If the portion taken be less than one half of the parcel, it is to be taken from the southeast corner in a square form as nearly as the form of the land will conveniently permit. Should any person so bidding fail to pay the amount due, the sheriff may again offer land for sale, if the sale has not closed, and if it has closed he may again advertise it specifically and by description, by one written or printed notice posted for two weeks on the door of the courthouse, or place where courts are usually held, after which it may be sold at public sale; or the sheriff may recover the amount by civil action, brought in the name of the county in which the sale was held. The county sheriff shall immediately after he has completed the sale of property for taxes as provided in this act, make out a list of the land and lots so sold for delinquent taxes, and file one copy thereof with the county clerk and one copy with the clerk of the circuit court in counties in which it is provided by law for clerks of the circuit court; and thereupon it shall be the duty of the district attorney to move the judge of said court for an order confirming the sale of all such real property, and thereupon the court, or the judge thereof, shall carefully examine all proceedings of the county sheriff in making said sale, and hear any defense offered by any person; and if the court or judge thereof shall find the said sale to be legal, he shall make an order confirming the same. If the court or the judge thereof should find the said sale was not legal, as to the whole or any description therein, then the county sheriff shall readvertise and have them sold for delinquent taxes and not redeemed, at his own expense, and he shall proceed to have said sale confirmed as in this act providing for original confirmation of sales. At the expiration of twenty months after the date set for the regular sale of property for delinquent taxes, the county sheriff shall publish an advertisement for four consecutive weeks, giving notice that at the expiration of two calendar months from the date of the first publication of said notice, he will apply to the circuit court, or the judge thereof if in vacation, for an order confirming said sale as to unredeemed property, which said notice shall describe the property as in the original description

thereof, and any persons interested in any of said lands or lots or to the entry of judgment against the same may appear and specify in writing the cause of objection, and why the confirmation of sale should not be made; and thereupon the court shall herein determine the matter in a summary manner without pleadings, and shall pronounce judgment as the rights of the case may be, or said court in its discretion continue such individual cases wherein differences are offered as it may deem necessary in order to secure substantial justice to the defendant or objector therein. The court, or judge thereof, shall give judgment for such taxes, assessments, penalties, interests, and costs as shall appear to be due upon the several lots or tracts described in such notice as having been sold for delinquent taxes, and not redeemed, and such judgment shall be considered as a sufficient judgment against each tract or lot or part of a tract or lot for each kind of tax or assessment included therein, including all penalties, interests, and costs, and the court or judge thereof shall order and direct a judgment to be entered directing the county sheriff to make a deed to the purchaser, in form as provided by this act, and a certified copy of said order, together with a certified list of the property therein ordered to be deeded, and filed with the county sheriff so as to be sufficient authority for the county sheriff to make the tax deed as in this county [act] provided; and no assessment of property or charges of any of said taxes shall be considered illegal on account of any irregularity in the manner of listing, assessing, or equalizing of property for taxation or in affecting the substantial justice of the tax itself, shall vitiate or in any manner affect the taxes or the assessment rolls, or of the proceedings of the board of equalization, or the tax list, or any matter connected with the sale of said property, and provided that no person shall be allowed to have any proceedings set aside or held for naught by the court or the judge thereof without having first tendered the amount of taxes that actually would have been due, providing there was no error or illegality in the same.

Section 29. All moneys collected for tolls, rentals from street railways, or otherwise, for the use of said bridges and ferries, as well as other earnings derived therefrom, shall be paid to the county treasurer of Multnomah county, who shall have the care and custody of such moneys, and which shall be known as the

bridge fund, and the moneys in said fund shall be only paid out under the direction and by authority of the said county court of Multnomah county. The county treasurer of Multnomah county shall from time to time, whenever and as required by the county court of said county, give additional bond or undertaking in such amount or amounts as said county court may require, to be approved by said court, for the safe keeping and accounting for of all moneys coming into his hands by virtue of this act.

Section 30. The bonds of the city of Portland heretofore issued to the extent of five hundred and fifty thousand dollars for the purchase, construction, and acquisition of free bridges and ferries, as well as the bonds to be issued under the provisions of this act, to the extent of two hundred thousand dollars, are hereby validated, and confirmed as existing, valid, and binding obligations of the city of Portland, and said city of Portland is hereby directed and required to pay as the same matures the half-yearly interest on all said bonds, as evidenced by the coupons attached thereto, but only in the event that the county court of Multnomah county fails, neglects, or does not provide for the prompt payment thereof as by this act said county court of Multnomah county is required to do, and at the maturity of the said bonds the said city of Portland is required and directed to pay the sum named therein to the holders thereof, unless the same shall be paid off and returned as provided for in section 28 of this act.

Section 31. The county court of Multnomah county shall establish and maintain a ferry across the Willamette river at some suitable point in what was formerly known as Sellwood, and now is a part of the consolidated city of Portland, on the east bank of said river to a point opposite thereto on the west bank of the said river, and shall cause to be used such of the ferry-boats as may be acquired by the said county court of Multnomah county, under the provisions of this act; *provided*, the cost of maintenance of such a ferry shall not exceed the sum of two thousand four hundred dollars per annum.

Section 32. The bridge commission of the city of Portland, mentioned in this act, and all its officers and agents are hereby authorized, empowered, and directed to turn over, and deliver to the county court of Multnomah county, all and singular the bridges, ferries, and property of every kind under their control and supervision, and also all moneys, books, papers, records, plans, specifications, contracts, rights, privileges, and property of every description and nature belonging to the same, or connected therewith, or in the possession or under the control of said bridge commission.

Section 33. All just claims, demands, and liabilities against

said bridge commission for maintaining and operating free bridges and ferries remaining unpaid, and existing at the time this act goes into effect, shall be presented to the county court of Multnomah county, and shall be audited and allowed when found correct and just, and paid and discharged by said county court of Multnomah county.

Section 34. That an act entitled "An act to authorize the cities of Portland, East Portland, and Albina to construct, purchase, or acquire, by condemnation or other means, one or more bridges across the Willamette river, between the city of Portland and the city of East Portland, in Multnomah county, Oregon, which bridge or bridges shall be free to all pedestrians and all classes of vehicles and traffic, except railways and street railways," filed in the office of the secretary of state February 18, 1891, and also an act entitled "An act to authorize the bridge committee and bridge commission, created and provided for in the act filed in the office of the secretary of state February 18, 1891, entitled 'An act to authorize the cities of Portland, East Portland, and Albina to construct, purchase, or acquire, by condemnation or other means, one or more bridges across the Willamette river, between the cities of Portland and East Portland, in Multnomah county, Oregon, which bridge or bridges shall be free to all pedestrians and all classes of vehicles and traffic, except railways and street railways,' and to acquire, establish, and operate a free ferry," filed in the office of the secretary of state February 22, 1893, and all acts and parts of acts in conflict herewith are hereby repealed.

The joint committee appointed to examine the management of the state penitentiary, submitted the following report:—

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
February —, 1895. }

To the Honorable Legislative Assembly of the State of Oregon:

Your joint committee, appointed to examine the books, business, and management of the penitentiary, have visited the prem-

ises and have conducted a full and complete examination of all its books, and have fully observed the manner and method of doing business at the institution, and herewith submit the following report:

We find the appropriations for the fiscal years 1893 and 1894 to be as follows: General expenses, fifty thousand dollars; superintendent, three thousand dollars; wardens, four thousand two hundred dollars; teamster and farmer, one thousand eight hundred dollars; bookkeeper, two thousand four hundred dollars; Shop guards, eight thousand dollars; guards, thirteen thousand two hundred dollars; engineer and plumber, one thousand eight hundred dollars; watchmen, five thousand four hundred dollars; physician, one thousand two hundred dollars; firewood, four thousand dollars; repairs, fencing, etc., four thousand one hundred and fifty dollars; rogues' gallery, seven hundred dollars; total, ninety-nine thousand eight hundred and fifty dollars.

There has been disbursed during said fiscal years, commencing January 1, 1893, and ending December 31, 1894, for various purposes, eighty-four thousand three hundred and twenty-seven dollars and eighty-four cents, distributed as follows: General expense, forty-four thousands seven hundred and fifteen dollars and twenty-one cents; guards, ten thousand five hundred and sixty-one dollars and fifty-seven cents; shop guards, three thousand five hundred and ninety-three dollars; watchmen, five thousand and sixty-four dollars and fifteen cents; superintendent, three thousand dollars; wardens, four thousand two hundred dollars; bookkeeper, two thousand four hundred dollars; engineer and plumber, one thousand eight hundred dollars; teamster and farmer, one thousand eight hundred dollars; physician, one thousand two hundred dollars; firewood, four thousand dollars; repairing, one thousand five hundred and nine dollars and ninety-one cents; rogues' gallery, four hundred and eighty-four dollars; total, eighty-four thousand three hundred and twenty-seven dollars and eighty-four cents,—leaving a balance unexpended of fifteen thousand five hundred and twenty-two dollars and sixteen cents.

There was appropriated last legislature two thousand five hundred dollars for the purchase of land for the penitentiary. There has been fifty-eight and one eighth acres purchased with this money near the mute and reform schools for the use of the penitentiary. There was also appropriated at the same time fifty-two thousand five hundred dollars for extension of penitentiary, additional buildings, heating, etc. Of this amount twelve thousand two hundred and thirty-eight dollars and eighty-three cents has been expended in the construction of an extension to the south wing of the main building, leaving a balance on hand and

unexpended of forty thousand two hundred and sixty-one dollars and seventeen cents. The matter of heating the buildings ought not to be longer delayed. The boiler is old and worn out; likewise the heaters and pipes. The engineer states that the boiler cannot carry over sixty pounds pressure with safety. This is maintained with an outlay of two and one half cords of wood per day, which would be much less with a new and approved system of heating. The pipes and heaters are so defective that steam is constantly escaping on the grounds and in the buildings. When the new cells are placed in the new extension and required to be heated, the engineer states that the present apparatus has not sufficient capacity to heat the entire buildings. We therefore feel it incumbent upon us to recommend that thirteen thousand five hundred dollars, or so much thereof as may be required, be appropriated for the purpose of putting in a complete heating system. The superintendent informs us that this is the sum competent engineers have estimated to be required for the same.

The expense of maintaining the convicts during the last two fiscal years is seventy-eight thousand two hundred and thirty-three dollars and eighty-three cents, on a basis of three hundred and sixty, the daily average of convicts, we find the per capita cost for one year to be one hundred and eight dollars and sixty-five cents, or thirty cents per day. Now, in this computation, the convicts are charged the total expense, while, as a matter of fact, they should have credit for all the food consumed by nineteen employés. This showing, in comparison with former years, reflects great credit upon the economical and business methods pursued by Superintendent Downing.

The business of the penitentiary is calculated by quarters, the first quarter commencing January 1, 1893, and the last quarter ending March 31, 1894. During the eight quarters last past the average number of convicts per quarter is respectively, three hundred and eighty-three, three hundred and sixty-two, three hundred and fifty-eight, three hundred and fifty-six, three hundred and sixty-five, three hundred and seventy-two, three hundred and forty-six, and three hundred and forty-five. The daily average is three hundred and sixty. At the date of this report the convicts number three hundred and fifty-seven, and the tendency is a constant increase. It is the opinion of the superintendent and officers, based upon present indications, that there will be five hundred convicts by the next session of the legislature. The present capacity of the penitentiary is two hundred and twenty-eight cells, each arranged to accommodate two convicts; thirty-six cells, each arranged to accommodate one convict. These cells will not accommodate the number they seem to indicate, for the reason that diseased convicts and quarrelsome

convicts must each have a cell to himself. It may, therefore, be prudent to appropriate twelve thousand dollars for the purpose of constructing fifty-two new cells in the new extension, or whatever may be the estimated cost of the same, provided the same is actually needed.

The method of business adopted is very satisfactory. There is an original voucher containing the items of the creditor's account, duly verified by him, that the items charged are reasonable. This voucher is presented to the superintendent, who examines it, then makes a copy of the account, attaches a duplicate voucher, and certifies that the items charged are reasonable. The creditor receipts to the superintendent for the original voucher, which he takes to the secretary of state, upon which the secretary issues a warrant on the state treasurer for the amount. These vouchers are filed in the office of the secretary of state and superintendent, respectively. These vouchers and itemized accounts, to the number of three hundred and fifty-three, have been examined, compared, and computed by your committee, and found correct. The journal, ledger, specific appropriation-book, commissary-book, and minor books have been examined, compared, and checked, and were found to be correct and kept very neatly.

The law provides that each discharged convict is entitled to a suit of clothes valued at fifteen dollars and five dollars in cash. This account we have examined, as well as the account with the United States prisoners, and found them correct. The United States prisoners are incarcerated in the penitentiary, and upon their discharge furnished a suit of clothes valued at fifteen dollars and five dollars in cash. This is paid in the first instance by the superintendent, who is subsequently reimbursed by the United States. There is an account kept with each convict who has or receives any money. We examined these, also, and found them correct. There is great pains taken by the warden, Mr. Berry, who handles all the effects of the prisoners, to see that he gets every cent coming to him.

We are compelled to acknowledge that our work was greatly facilitated by the uniform courtesy of Superintendent Downing and Mr. Thompson, his efficient bookkeeper. These gentlemen were anxious and willing for us to make a full and complete examination into every book and department.

We furthermore beg leave to report, in accordance with your resolution No. —, that we visited the premises of the Oregon state stove foundry and examined the books of the same and manner of doing business as well as we could under the limited time at our disposal. The last legislature appropriated sixty-five thousand dollars for the purchase of the plant of the Northwest Foundry Company. Forty thousand dollars of this amount was

disbursed in the purchase of said plant; the remaining twenty-five thousand dollars was disbursed in operating expenses, purchasing material, and labor. This was called the Oregon state stove foundry fund, and was exhausted October 31, 1893. Then commenced the revolving fund, a fund arising from the sales of the stoves. At the close of the term ending December 31, 1894, this fund had earned thirty-one thousand three hundred and eighty-six dollars and sixty-three cents and disbursed for material and labor twenty-six thousand four hundred and ninety-eight dollars and forty-eight cents, leaving a balance in its favor of four thousand eight hundred and eighty-eight dollars and fifteen cents. The plant has not run constantly during the twenty months since it began operation. Three months of this time, approximately, it has not run. This has been due to such causes as the seasons, want of sufficient ready money at times, fluctuation of demand for the product, and, especially, the hard times.

There are employed about the plant seven free men and about one hundred and forty convicts, on the average. To increase the efficiency of the labor, a system of rewards is established. This consists in paying a small monthly money reward for good and careful work. Each convict who tries to do right is rewarded something, and in proportion to his efficiency. The scale averages about seventy cents per month.

This system cannot be too highly commended. Mr. R. B. Fleming, the able manager of the plant, inaugurated it under the very satisfactory régime of Mr. Geo. S. Downing.

All of which is respectfully submitted.

GEO. T. MYERS,

Chairman on the part of the house.

A. J. JOHNSON,

Chairman on the part of the senate.

On motion of Mr. Myers, the report was adopted.

Mr. Paxton moved that house bill No. 342 be recalled from the senate.

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
February 18, 1895. }

Mr. Speaker :

Your committee on railways and transportation, to whom was referred house bill No. 275, beg leave to report that we have had the same under consideration, and respectfully report it back to the house without recommendation, as amended by the chamber of commerce of Portland, Oregon, to read as follows:

AMENDMENT.

A bill for an act to provide for the construction, or otherwise providing by and on behalf of the state of Oregon, of a portage railway around the obstruction in the Columbia river, existing between The Dalles and Celilo on said river.

Be it enacted by the Legislative Assembly of the State of Oregon :

Section 1. That the governor, secretary of state, and the state treasurer are hereby created a board, with full power and authority to, for, and on behalf of and in the name of the state of Oregon, to do, perform, carry out, and do all the acts, matters, and things hereinafter in this act specified and provided to be done, and all other acts and things incident or necessary to the full and complete carrying out and fulfilling of the objects, intents, and purposes of this act.

Section 2. To build, construct, equip, and maintain inclines and tracks from the navigable waters both below and above the obstruction in the Columbia river, existing between The Dalles and Celilo, on said river, to a connection with the tracks of the Oregon Railway and Navigation Company, so as to form, in connection with said track of said company, a complete and continuous track of portage railway from a suitable point on the navigable

waters below to some suitable point on the navigable waters above said obstruction, and to build all such wharves as may be reasonably necessary for the landing of steamboats, and the discharge and loading of freight at the two several ends of said portage road so made, from and onto steamboats, barges, or other crafts, and from and onto the said portage railroad, and to place therein any and all reasonable necessary machinery or other appliances for the convenient handling of said freight.

Section 3. To enter into a contract with the said Oregon Railway and Navigation Company, if it shall appear to them to be advantageous so to do, providing for the equipping and operating of said portage railway, and the prompt transfer of any and all passengers and freight of any and all kinds usually carried by transfer companies or lines between the several terminal points of said portage railway so made up as aforesaid, at rates fixed and agreed upon between said commissioners and said railroad company.

Section 4. Or if it shall fail to agree with said Oregon Railway and Navigation Company, as aforesaid, or in the event that having agreed with said company, it shall at any time fail or refuse to carry out said agreement on its part to the satisfaction of said commissioners, then and in that case, to, for, on behalf of, and in the name of the state of Oregon, to condemn in manner and form as right of way now be condemned by railroad and other corporations under the laws of the state of Oregon, a right to use so much of and such part of the track of said Oregon Railway and Navigation Company's track as it may be necessary or convenient to use in the making and operating of a continuous portage railway as is hereinbefore provided to be done by agreement with said company and of operating trains thereon on such terms and for such compensation to be made to said company for the use of its said track, as aforesaid, either by payment of mileage, tonnage, or otherwise, as may be adjudged reasonable, but in no event so as to prevent the reasonable use by said railroad company of said portion of its said track the use of which is so condemned and taken as a continuation or part of its through line, and so as to use it for the moving of its trains thereover in its regular business as now conducted, but nevertheless, not reserving to said company the right to use said part of its said track, the use of which is so condemned as a part of a portage railway to be hereafter set up and maintained by it, so as to obstruct the reasonable use thereof for said portage railway herein provided for.

Section 5. To equip, maintain, and operate the portage railroad provided for in section 4 hereof and regulate freights and fares thereon.

Section 6. In the event the said commissioners shall find it to be less expensive to construct a portage railway entire than to condemn a part of the track of the said Oregon Railway and Navigation Company's track, as hereinbefore provided to be done, then, and in that case, the said board of portage commissioners are authorized,—

First—To build, construct, run, equip, operate, and maintain a portage railway between the highest and lowest points of the navigable waters of the Columbia river, between The Dalles and Celilo, in Oregon, such as in their judgment shall be sufficient to meet the demands of transportation at these points.

Second—To build and construct all necessary wharves, switches, and approaches to the same; to purchase and provide said road with all necessary engines and rolling stock, and to purchase all needful, convenient, and necessary supplies for the successful construction, operation, and maintenance of the same.

Third—For and on behalf of the state, and in its name, to purchase all necessary land or rights of way, and for and on behalf of the state, and in its name, to condemn, by suit or action, all necessary or needful lands or rights of way in the same manner as is provided by the laws of this state for the condemnation of lands and rights of way by other corporations for public use, and therein to have the right, power, and authority to condemn any part of the right of way of any railroad company not actually occupied at this time by track in actual use.

Fourth—To employ all such aid as may be necessary to build, construct, operate, or maintain the same.

Fifth—To do and perform all other acts necessary or expedient for the successful construction, operation, or maintenance of said road.

Section 2. Said board shall commence to build, construct, run, operate, and maintain said road as soon as there are any available funds under the provisions of this act, and it shall be completed within one year from the passage of this act.

Section 3. Said board of commissioners, for the purpose of reimbursing the state, and for the purpose of running, operating, and maintaining said road, are hereby authorized and empowered to charge and collect freights and fares on said road, to be fixed and adjusted by the board; *provided*, that all property, or prisoners, or troops belonging to or under the control of the state of Oregon, shall be transported over said road free of charge.

Section 4. It shall be the duty of said board to keep suitable books, in which shall be entered a correct statement of all freights and passengers transported over said road; of all moneys paid out, to whom paid, and for what purpose; of all moneys received, and from what source; of all property owned by the state and

for the purposes aforesaid, and such books shall at all reasonable hours be open for the inspection of any person.

Section 5. Before any person employed by said board shall enter upon the discharge of any duty wherein or whereby he shall have the custody or handling of any money, he shall be duly sworn and required to execute a bond to the state of Oregon, to be approved by said board, in any sum not less than two thousand dollars, conditioned to the effect that he will faithfully and honestly discharge the duties of his trust, and account for and pay over all money received by him, or coming into his possession or control.

Section 6. It shall be the duty of said board to report to the legislative assembly of this state, biennially, everything done or performed by them under this act.

Section 7. The freights and fares charged and collected by said board shall be used in running, operating, and maintaining said road, and the surplus shall be paid into the state treasury and credited to the common school fund, for the purposes of distribution therefrom in a like manner as other school funds.

Section 8. That there be and is hereby appropriated out of the general fund of the state of Oregon the sum of three hundred thousand dollars (\$300,000) from any money not otherwise appropriated, for the uses and purposes aforesaid, and the secretary of state be and hereby is authorized to draw his warrants upon the state treasurer for said sum, or any part thereof, when directed to do so by the board.

Section 9. Inasmuch as the present means of transportation are inadequate to the great demands of the producers of eastern Oregon, this act shall take effect and be in force by and after its approval by the governor.

The motion was lost.

ASSESSMENT AND TAXATION OF DEBTS.

All debts shall be assessed and taxed at the same rate as other property is assessed and taxed in the county, city, or district where a debtor resides, or the property is situated, as hereinafter provided. For the purpose of assessment and taxation debts shall be divided into two classes:

First—A mortgage, deed of trust, contract, or other obligation by which a debt is secured by any interest in real estate, shall, for the purposes of assessment and taxation, be deemed and treated as an interest in the property affected thereby, except as to railroad corporations. In case the debts so secured, the value of the property affected by such mortgage, deed of trust, contract, or obligation, less the value of such security, shall be assessed and taxed to the owner of the property, and the value of such security shall be assessed to the debtor in the county, city, or district in which the property affected thereby is situated, and every person so assessed shall be and is hereby created and made the agent of each of his creditors for the purpose of giving the necessary statement of said debts to the assessor and of paying all taxes due thereon, and such debtor is required to give to the assessor an itemized list of the amount due in said debts on the first day of March of the year of which the assessment is made, giving the name and address of each creditor; *providing*, that the aggregate of the security upon the property shall not be assessed at a sum greater than the aggregate value of the property. The taxes so levied in any county, city, or district, as the case may be, shall be a lien upon the property and security, and may be paid by either party to such security; if paid by the owner of the security, the tax so levied upon the property affected thereby shall become a part of the debt so secured. If the owner of the property shall pay the tax so levied on such security, it shall constitute a payment thereon, and, to the extent of such payment, a full discharge thereof, excepting where the parties have otherwise contracted as to who shall pay the taxes on said property or debts. If any such security or indebtedness shall be paid by any such debtor or debtors not having agreed to pay the tax, after assessment and before the tax levy, the amount of such levy may likewise be paid to the proper tax collector and retained by such debtor or debtors, and shall be computed according to the tax levy for the preceding year; and every contract by which a debtor is obliged to pay any tax or assessment on money loaned, or on any mortgage, deed of trust, or other lien, secured as hereinbefore provided and paid off shall, upon payment of the taxes, as aforesaid, as to any interest specified therein, and as to such tax or assessment, be null and void.

Second—Debts not included in the first class, that shall not be subject to assessment and taxation, upon which the debtor shall pay the taxes, means those debts not secured by an interest in real estate, evidenced by some instrument in writing, and all such debts shall be assessed and taxed at the same rate as other property is assessed and taxed; and in the county, city, or district where the debtor resides, and every person who is assessed for the purpose of taxation, shall give an itemized list of such debts as he owed on the first day of March of the year in which the assessment is made, giving in said list the name of each creditor and the amount due to such creditor at that time, and every person so assessed shall be and is hereby created and made the agent of each of his creditors for the purpose of giving the necessary statement of such debts to the assessor, and of paying the taxes thereon, and such statement and list shall be verified in the manner now provided by law for verifying assessment lists; *provided*, that where a person lists debts as provided in this section, the amount of such debts shall be deducted from the property so assessed in such proportion to the whole amount of debt as the assessed value of the debtor's property bears to the real value. The debtor shall pay all taxes which may be levied against debts so assessed, and shall be and is hereby authorized, when he has paid said taxes, excepting any case where said instrument in writing shall provide otherwise, to deduct and retain from the amount of said, or from the annual amount, the amount of interest thereon when he shall pay the same, the amount of tax which shall be levied against that debt; and the amount of such tax shall be a lien on all property of the debtor in like manner as other taxes are now a lien by law, and shall be collected as other taxes are now collected. In case any statement made by such debtor shall be found to be false, and that such party has wilfully or recklessly made a false statement, such party shall be deemed guilty of perjury, and shall be liable to the pains and penalties therefor. All contracts for the payment of taxes on debts outside of the county, city, or district in which the property is situated, or the debtor resides, as the case may be, as hereinbefore provided, are hereby declared to be null and void.

Whereas the legislative assembly of the state of Oregon, at its seventeenth biennial session, passed an act entitled an act to create a commission to provide for the display of Oregon resources at the world's Columbian exposition, to define its duties and to appropriate money therefor, and thereby did appropriate out of the state treasury the sum of sixty thousand dollars to be expended therefor; and, whereas, in pursuance of said act, and to carry out the objects thereof, the governor of the state of Oregon appointed Honorables Geo. T. Myers, W. F. Matlock, Geo. W. McBride, Phil Metschan, C. W. Ayers, J. A. Wright, J. R. Cardwell, E. B. McElroy, Mrs. Mary Payton and Mrs. E. W. Allen, and Messrs. M. Wilkins and Henry Klippel as honorary members of said board of world's fair commissioners, and said commissioners duly qualified and entered upon the discharge of their duties; and, whereas, the said board of world's fair commissioners have discharged their trust and completed their labors in a manner highly satisfactory in every respect to the people of the state of Oregon, and have by their energy and ability largely added to the prosperity of our state by exhibiting our resources at said world's fair; and, whereas, by strict economy, the said world's fair commissioners have saved out of said appropriation the sum of eighteen thousand two hundred and eighty dollars and sixty-nine cents, which said funds are now in the hands of Hon. Resolved, That the interests of the state of Oregon require that twenty thousand copies of the report of said world's fair commissioners be printed and distributed.

Resolved, That the thanks and gratitude of the people of the state of Oregon be extended to the gentlemen composing the said board of commissioners, to Secretary C. B. Irvine and to General Superintendent Jay Guy Lewis, for the able, energetic and successful manner in which they performed their duties to the state.

Resolved, That a joint committee of five, consisting of three from the house and two from the senate, be appointed to procure a suitable testimonial to be presented to President Geo. T. Myers as a token of the appreciation and approval by the people of the state for the successful management of this great enterprise.

Resolved, That the committee on ways and means be instructed to include in the general appropriation bill, an item not to exceed the sum of two thousand dollars, to provide for the payment of such outstanding claims against said world's fair commissioners as shall be lawfully approved and audited, including the sum of five hundred dollars, hitherto awarded by the joint committee on world's fair commissioners, to Mrs. Emma G. The joint committee appointed under senate concurrent resolution No. 13, submitted the following report:—

REPORT.

HOUSE OF REPRESENTATIVES, }
 SALEM, Oregon,
 February —, 1895. }

Mr. Speaker:

The joint committee, appointed under senate concurrent resolution No. 13, to investigate the management and condition of the Oregon state insane asylum, beg leave to report that we have discharged the duty assigned us.

We find that the patients are supplied with all things necessary for their comfort, that sufficient and wholesome food is furnished them and that the wards are kept in a cleanly manner, and the sanitary conditions are as near perfect as it is possible. A complete fire system and equipment is maintained and the safety of the patients in this respect as well guarded as is possible.

The building known as the infirmary is a fine structure, and its arrangement such that there is but little, if any, danger from the spread of contagious diseases, should any break out or be introduced there. The treatment of the patients is humane and courteous, and the rules governing all things relating to the care, sustenance, and attention of the patients are complete, and a strict compliance required. The lands about the asylum and of the asylum farm are carefully and systematically cultivated, and under its present state of cultivation furnish all the vegetables and small fruits necessary for the maintenance of the employés and patients, and the further amount of roots and hay necessary to feed all the stock owned by this department. We have visited the asylum cottage farm and find all the improvements of substantial character in their construction. The buildings are all well made, comfortably furnished, and neatly kept. The fences are good and the land under a good state of cultivation. Under the present careful management of the institution, the average cost per capita per month has been reduced from an average of twelve dollars and sixteen and four tenth cents per month at the close of the year, 1892, to an average at the close of the last year of nine dollars and twenty-three cents per month, making the present cost per capita of about thirty-two cents per day.

The library should not be neglected, as it is of great benefit to the patients. There are at present about one thousand inmates in the asylum, and the number is gradually increasing, the number reported at the last biennial session of the legislature being eight hundred and twenty-eight.

A thorough investigation of the books and accounts of the institution has been made by competent clerks, and in all particulars they have been found correct. From the present system of keeping accounts, however, we find that the bookkeeper at the asylum has no means of keeping his accounts in check with the secretary of state without considerable extra trouble and care on his part. We would recommend that the board adopt the following system, to wit: That the bookkeeper at the asylum be required to send duplicate bills attached to his vouchers when making his report to the board; that when a bill is audited and a warrant drawn for the same, the secretary of state shall stamp or indorse on the duplicate bill attached to the voucher the number of the warrant, date of issuance and amount, and sign the same and return it to the asylum, or if a warrant is issued for any sum authorized and not received by voucher from the asylum, a bill of the same, stamped as above indicated, should be sent as in the former case. This would, in our opinion, be a complete check on both offices and prevent the liability of errors which might now exist.

We would further recommend that the quarterly payroll be made in triplicate, both original and duplicate being signed by the employes, and one deposited with the secretary of state, upon which he should issued his warrant for the total amount named therein in favor of the bookkeeper. The bookkeeper should then deposit the duplicate payroll with the treasurer at the time of cashing his warrant, and pay the employes their several amounts as reported on the payroll, retaining the triplicate copy. These payrolls should all be stamped or indorsed by the secretary of state, as above indicated in relation to the vouchers.

In order that the state and employes may be protected, the bookkeeper at the asylum should be required to give a good and sufficient bond in such sum as the board may name. This latter system would save a great deal of work both to the secretary of state and state treasurer, and be far less trouble to the employes than the present system.

In the matter of charges against the management of the asylum your committee would further report that it has held three stated meetings, each of which were publicly advertised under the statement that it would receive and consider any charges regarding the improper management of the affairs of the asylum properly brought before it. No charges were preferred at any of these meetings, and we are of the opinion that none can be brought affecting in any way the careful and proper management of that institution.

In all our examinations the superintendent has been very courteous in his demeanor, careful in his explanations, and has insisted on a thorough and searching investigation.

The bookkeeper was courteous and obliging, and during the examination of the books and papers gave his aid and all assistance required in the investigation.

The joint committee appointed under senate concurrent resolution No. 3, submitted the following report:—

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
February —, 1895. }

Mr. Speaker:

The joint committee appointed under senate concurrent resolution No. 3, to inquire into the building and management of the

Oregon soldiers' home, beg leave to submit the following report:

We found the home quite pleasantly situated near the Umpqua river, and about one mile from the thriving city of Roseburg. In selecting a site for the home, your committee cannot find that any effort was made by the board of trustees to invite competition from other cities for donations of land or for sites for the home. It seems that only two were received and these were not considered. One tract of forty acres of land was purchased for a site at this place at a cost of seventy-five dollars per acre. The land is low and level, and covered by a dense growth of small timber. About ten acres of this land has been cleared, but your committee could obtain no direct and reliable information regarding the cost of clearing this land. The work seems to have been done by a large number of individuals employed by the day or hour and in connection with other labor, and no separate account of the cost of this work could be obtained. As regards the plan of the building your committee will not question, nor does it doubt the good intention of the board of trustees, but with the money expended, a building far more commodious and better adapted to the purpose intended might have been constructed. Nearly the whole of the first floor is occupied by the office, reading-room, and apartments for the employés, while the inmates, many of them feeble, must climb to the second floor and attic of the building.

The amount appropriated for the buildings by the act of 1893 was eight thousand dollars, while the amount actually expended was eleven thousand eight hundred and thirty-four dollars and seventy-eight cents, thus creating a deficit in that account of three thousand eight hundred and thirty-four dollars and seventy-eight cents, as shown by the report of the board of trustees.

Your committee find the following to be the number of employés and amounts paid to each per month: Commandant, eighty-three dollars and thirty-three cents; adjutant, fifty dollars; surgeon, forty-one dollars and sixty-six cents; matron, thirty dollars; cook, fifty dollars; assistant cook, ten dollars; laundress, twenty dollars; dining-room girl, twelve dollars; assistant matron, twelve dollars; teamster, twenty-five dollars; farmer and gardener, thirty dollars; mail carrier and laborer, ten dollars. Total, three hundred and seventy-three dollars and ninety-nine cents per month, or four thousand four hundred and eighty-six dollars per year. It will be seen that this is four hundred and seventy-six dollars, more than one third ($\frac{1}{3}$) of the entire yearly appropriation for the maintenance of the home, and does not include what is paid to inmates who labor on the farm.

This amount seems to your committee to be far above the necessary requirements and ought to be reduced.

Section 15 of the act of 1893 reads as follows: "Said board of trustees shall regularly meet on the first Tuesday of March, June, September, and December, and shall at such times be authorized to audit the accounts of the said soldiers' home; and upon the approval thereof, said secretary shall make a statement of said accounts, which said statement shall be certified as correct by the president and secretary of said board of trustees, and shall then be filed in the office of the secretary of state, who shall then draw warrants upon the funds which may be appropriated or from time to time set aside for soldiers' home funds for the payment of the same; *provided*, that all warrants so drawn shall designate upon their face the purpose for which the same may be drawn, and that the same be paid from the soldiers' home fund."

The report of the board of trustees covering a period of eighteen months from May, 1893, to October, 1894, shows that there were held during that time eight meetings of the executive committee of the board, consisting of three members, and twenty-two meetings of the full board, or thirty meetings in all. Now, taking this land, covered with timber as it was, clearing it, erecting the building, furnishing it, and with all the minor details necessary for its completion and occupancy, and all this required more than quarterly meetings of the board, your committee do not deny, but freely admit. But it must be remembered that the construction of the building was by contract, as was the plumbing, and as the clearing of the land should have been, and that all these meetings of the board were necessary your committee cannot believe, nor was there any evidence whatever produced before the committee to show this necessity. We are constrained then to say that it shows, if nothing worse, a lamentable want of business capacity on the part of the board of trustees. Your committee further find that the sum of five dollars per day was charged by the members of the board of trustees for each day's attendance on the meetings of the board in direct violation of section 18 of the act of 1893, which is as follows: "Said trustees shall not receive any compensation for their services, but they shall be entitled to their actual expenses incurred while attending the sessions, or in attending to the transaction of any business by and under the direction of said board of trustees." We also call your attention to the following communication from the secretary of state containing an opinion of the attorney-general, as the trustees claim that the charge of five dollars per day was legitimate and made to pay for help employed by them in their absence in attending the meetings of the board.

SALEM, Oregon, January 8, 1894.

Mr. A. J. Bellows, Trustee, Oregon Soldiers' Home, Roseburg, Oregon—

DEAR SIR: Enclosed please find voucher No. 5229 for twelve dollars and fifty cents—four dollars less than the total amount of your bill. This disallowed item is for the "cost of labor hired while absent." I have referred this matter to the attorney-general, and, in his opinion, he states: "A member of the board of trustees of the soldiers' home, while absent in attendance upon a board meeting, employs a man to take his place on the farm during his absence and pays him for his services four dollars, would it be proper to audit and allow said member this item? I am of the opinion that it would not be proper so to do. Section 18 of the act of 1893, providing for the appointment of the board of trustees of the home, provides that said trustees shall not receive any compensation for their services, but they shall be entitled to their actual expenses incurred while attending the sessions, or in attending to the transaction of any business by and under the directions of said board of trustees."

The language of the statute quoted does not indicate that the legislature intended the allowance of such claims as the one above referred to. Such a construction would leave to the several members of the board of trustees the discretion to estimate their services at any price they might see fit, and indirectly make the state compensate them most handsomely therefor.

I have for the above reason disallowed the item first referred to in this letter.

I remain, yours very respectfully,

GEO. W. McBRIDE,
Secretary of state.

Your committee find that the following amounts have been received by different members of the board of trustees for attendance on its meetings: J. W. Mullen, two hundred dollars; Charles Nickell, two hundred and sixty dollars; S. S. Train, one hundred and ninety-five dollars; James Byron, two hundred and ten dollars; A. J. Bellows, thirty dollars. We desire it to be understood that these charges are in excess of the regular car fare and Pullman car fare and other expenses. These amounts being as follows: Charles Nickell, two hundred and six dollars; S. S. Train, one hundred and sixty-three dollars; James Byron, fifty-one dollars; the latter living twelve miles in the country, and Messrs. Mullen and Bellows living in Roseburg. The total amount of these charges being one thousand three hundred and fifteen dollars, of which sum eight hundred and ninety-five dollars was paid themselves by the board of trustees in direct violation of

law. Your committee find that Trustee Bellows, after attending six meetings of the board and charging per diem for the same, but coming to the conclusion that this charge was contrary to the spirit and intention of the law, he thereafter discontinued it. He also claims to have returned to the state the full amount thus wrongfully taken. It will be noticed that the per diem of S. S. Train, as above given, was one hundred and ninety-five dollars. He also claims to have made good to the state the sum of fifty dollars, the above amount being his salary for one quarter, as secretary of the board of trustees, which he did not draw. Your committee note these facts in justice to Messrs. Bellows and Train. But your committee cannot fail to note that, allowing the return to the state of fifty dollars by Mr. Train, there yet remains the sum of one hundred and fifty dollars salary as secretary of the board of trustees for three fourths of the year, while it was in evidence before your committee that Mr. Train did not perform the labor, but that it was performed by the commandant and adjutant of the home.

In May, 1893, J. W. Mullen and Charles Nickell, members of the board of trustees, visited the soldiers' home at Yountville and Santa Monica, California, and obtained free passes over the Southern Pacific railroad, as the following correspondence had with Mr. T. H. Goodman, general passenger agent of the Southern Pacific Railroad Company, will show:—

ROSEBURG, Oregon, April 24, 1893.

Mr. T. H. Goodman, San Francisco, California—

DEAR SIR AND COMRADE: Your local agent at this place, Mr. Estes, has kindly shown me your letter to him concerning the matter of transportation asked for by Mr. Mullen of our board of trustees. After a brief presentation of our case, I trust that you will be able to grant our request securing to us the necessary transportation over your road. Briefly, it is this: The Oregon legislature appropriated so small a sum for us to accomplish anything looking toward the early completion of this much-needed enterprise, it is necessary for us to use the most rigid economy in every particular. None of the board being familiar with the workings of such a home, we feel it to be a necessity for some of us to make a personal visit to such homes as are available, so that we may avoid making costly mistakes that would be likely to happen did we not have an opportunity of gaining all the information possible. I have just returned from a visit to the home at Orting, Washington. From what I learned from my brief stay there clearly proved to me that a day spent at Yount-

ville and also at Santa Monica would be of greatest value to us. I hope you will not take this as a criticism to your management, but in justice to myself as a member of the board, I think we are entitled to the same consideration from the Southern Pacific Company as has been given us by the Union Pacific, Northern Pacific, and also Hunt's system.

Wishing to meet the committee on the home at the Grand Army of the Republic encampment just held at Pendleton, I stated my case to Mr. Ord, of the Union Pacific, at Portland, and was given a pass for all the Grand Army of the Republic members of the board from that city to Portland. Then being anxious to gain as much time as possible, I determined to go to Orting before returning to Roseburg, and Mr. Prescott, of the Northern Pacific, at Portland, gave us a pass from Pasco to Orting and then go back to Kalama. Now here are two roads so located that they will never be benefited one dollar by our enterprise, whose managers, looking at the great merits and public character of such an institution in its true light, kindly gave us all we asked for. Will your road do less? When you take into account the fact that all the lumber and material to be used has to be transported over your road and the supplies for its maintenance for all time also, don't you think we are reasonable in our request? Comrade, I want you to be just as fair as I try to be. I know without your telling me the extent to which the granting of passes are abused and in my private character, as a citizen, I would be the last to ask any favor not accorded to the rest of the public, for I am an ardent believer that all men pay as they go. That I am now and am likely to be in position that will be of value to your road I am certain. Understand me not in any way that would not invite the closest scrutiny, but as a man that realizes the great importance your road holds in its bearings on the future welfare and prosperity of the Pacific coast, and is willing to give it credit as such, which I am sorry to say is almost the exception instead of the rule. If you wish to inform yourself as to who I am, I can refer you to Paymaster Reid, who is well acquainted with me. If my memory is not at fault, I think I met you at the national encampment, at Portland, Maine, where I was a delegate from Portland, Oregon, and had a pass which I earned in aiding to get the next encampment at your city. That the object of present request is more worthy than any you are likely to be called upon to aid, I am sure, and, with this presentment, I leave the matter in your hands.

Yours in F., C. and L.,

A. J. BELLOWS.

On May 8th I received the following reply:—

SAN FRANCISCO, May 5, 1893.

Mr. A. J. Bellows, Roseburg, Oregon—

DEAR SIR: On returning early this week after an absence at the east your letter of the twenty-first ultimo was handed to me by Mr. Donaldson, my assistant. He was inclined to do what you asked, but, expecting my return at any moment, preferred I should act, hence the delay. With this apology for seeming nonattention, we beg to say we will comply with your request and arrange for the free transportation desired for the three members of your committee from Coles to Santa Monica and return. On being furnished with the names of the members by Mr. Mullen we will at once communicate with him through our agent, Mr. Estes.

Respectfully yours,

T. H. GOODMAN.

Following this an effort was made to secure a copy of Mr. Mullen's letter to Mr. Goodman, asking for free transportation, and of which Mr. Bellows' letter, as quoted above, was a supplement. Mr. Goodman replied as follows:—

SAN FRANCISCO, February 6, 1894.

Mr. A. J. Bellows, Secretary, Oregon Soldiers' Home, Roseburg, Oregon--

DEAR SIR: I am in receipt of your favor of the second instant. I still am of the opinion that it would not be the proper thing for me to give you a copy of the correspondence asked without an official request is made on me for the same.

You say that the majority of the board of trustees would not coincide with you in asking for these copies. It seems singular they should not if they have a desire to maintain proper "decorum," I might say, among themselves as a body, and retain the good will of our company. Mr. Mullen's original letter asked for free transportation so that the home might receive the benefit thereof, at least I think any one would concur with us in our opinion that such was the tenor of the request. The passes would certainly never have been given under other circumstances.

You say that you introduced a resolution before the board that the money thus charged up be refunded, and this was done under the advice of Governor Pennoyer. It occurs to me that the governor, as the executive officer of the state of Oregon, controls the home, and could therefore very consistently duplicate your request. Should he do so I certainly will comply.

I will add that Mr. Mullen has recently asked for passes for

two more of your people, which request I deemed it but right to decline, we having in effect our M. W. F. rates of one fare from Roseburg to San Francisco and return, and special rates then to Santa Monica.

Very respectfully,

T. H. GOODMAN.

It will thus be seen that Trustees Mullen and Nickell received free passes solely that the home might be benefited that much and on account of the small appropriation it had received, but notwithstanding this fact well known to them, Messrs. Mullen and Nickell charged and received from the state the full amount of the fare. Mr. Nickell justifies his conduct in the matter and incidentally replies to Judge Fullerton, who had given it as his opinion that the act was unlawful, as follows:—

JACKSONVILLE, July 11, 1893.

Mr. A. J. Bellows—

DEAR SIR: I have been absent from home some time and in looking over the correspondence find your letter advising me of the return of our transportation vouchers to the secretary of state.

I am greatly surprised at your action in this matter, and am at a loss to know how you could assume the authority of annulling or countermanding the action of the board. This is an assumption on your part wholly unauthorized by your position. The opinion by Judge Fullerton is that of an individual, nothing more, and entirely gratuitous, for the reason that the matter is not up for judicial investigation. It is surprising that Judge Fullerton would step aside to render an opinion upon a matter not properly and legally before him. The board in its official capacity passed upon and authorized the payment of the vouchers, and it was its privilege and right to do so, and certainly no one member of the board could assume the authority of undoing its work. It is well known that legislators and many people ride on passes and still get their mileage, but this has nothing to do with the matter. We are entitled to transportation from the state; if we can secure it from companies through individual influence it is a matter with which the state has nothing to do, and in no sense relieves the state of its obligations. If we chose to walk the state would be liable for the transportation, just the same as if we actually paid our fare. The above being the undeniable facts in the case, I hope you will write to the secretary of state at once and order the vouchers returned so we can get our warrants.

Yours, very truly,

CHARLES NICKELL.

Your committee will dismiss the subject here, simply premising that the laudable object of saving money for the Oregon soldiers' home did not seem to be the ruling motive in the lives of Messrs. Mullen and Nickell, at that time. Immediately following this trip of Messrs. Mullen and Nickell to California, the board dispatched Mr. Baldwin, the commandant, and Mrs. Sada Watkins, the matron, to visit the soldiers' home at Orting, Washington, Mr. Bellows having visited the same place earlier in the spring. On their return and still on information bent, the board sent Baldwin over the same route Mullen and Nickell had taken to Santa Monica and Yountville, California. That Mr. Baldwin did not ride on the breakbeam, nor get his meals at the soup-house, is evident from the bill of particulars which he presented on his return. Railroad fare paid out, forty-eight dollars and fifty cents; Pullman fare paid, twelve dollars; hotel bills, sixty dollars; clerical assistance, car fare, and incidentals, ten dollars; total, one hundred and thirty dollars and fifty cents.

Your committee find certain vouchers drawn in favor of Mr. Mullen amounting to one hundred and eighty dollars for what he terms "expense at home grounds." What the term "expense at home grounds" means, your committee cannot determine, nor could Mr. Mullen himself make it at all clear. The report of the board of trustees shows several hundred vouchers drawn in favor of Mr. Mullen, but what he did with the money or who received it, your committee could not ascertain. In one instance, it was shown your committee, the party for whom Mr. Mullen drew the money never received it. In this connection we desire to condemn in the most emphatic manner this so-called report of the board of trustees. It is composed of several hundred items thrown promiscuously together without system, aim, or method. Your committee has searched for days through its labyrinth of particulars to get something tangible and definite. Nor does the board of trustees seem to know much about it. It seems intended only to confuse and confound the searcher for information from its incongruous pages.

A large part of the printing for the home has been done by the Times Printing Company of Jacksonville, of which company Mr. Nickell is a member. The report of the board of trustees shows but few items, the cost of which can be compared with the same produced by other companies, but we have selected such as can be and have compared the cost of the same with those produced by Ross Moores and E. M. Waite of Salem, and two firms in Portland, and find that in every case the Times Publishing Company has charged fifty per cent. more for the same work than is charged by the firms above named. We have examined as far as possible the blank books furnished by said company, the other

items above mentioned being different styles of envelopes and letter-heads, and believe that the whole amount of printing done by this company, and aggregating over five hundred dollars, has cost the state fifty per cent. more than if done by any other printing company in the state of Oregon. In concluding this report your committee desire to say that we have endeavored to do justice and spare not. And in this connection we desire again to mention the fact that Mr. Train returned, indirectly, fifty dollars of the money wrongfully withheld by him, and in justice to Mr. Bellows we will say that, beginning a career of dishonesty with the other members of the board, he early saw the injustice of his course, and did what he could to make amends for his wrongdoing. He has assisted us very materially in obtaining evidence and information, and has made a clean breast as far as we are able to determine of the whole matter.

The citizens of Roseburg have an interest in this home and its good name more direct and important than the citizens of any other part of the state. They desire that no scandal of any kind shall come upon it. They desire the fullest investigation of its management. They want no man, whoever he may be, to escape who has done it an act of injustice. They have been represented on this committee and every fair minded person in Roseburg will acquiesce in its conclusions. The mismanagement of the affairs of the home becoming a matter of notoriety, the department commander of the department of Oregon, Grand Army of the Republic, on last September appointed a committee of five members of that order to make an investigation and report at this session of the legislative assembly. The department commander has withheld that report from your committee and we knew nothing of its import until our own report was entirely prepared. We herewith submit that report:—

PORTLAND, Oregon, January 12, 1895.

Hon. B. F. Alley, Senator from Lane County—

DEAR SIR AND COMRADE: At a meeting of a special committee in behalf of the Oregon home for old soldiers, appointed by the department commander of the Grand Army of the Republic, to look after the interests of the old soldiers at the coming session of the legislature, and to coöperate with a joint committee, which, no doubt, will be appointed for that purpose. After a careful examination of the management of the funds by the present board, we find that there has been an extravagant and careless management of the funds of the home, and the improper expenditure of the funds thus far leaves quite a large deficit now existing which might have been avoided with ordinary business ability and

management, as the accompanying paper will fully show to you.

We also hand you a consolidated statement of the funds, which will show about what each member has received and applied to his own gain. Also, several members have taken certain contracts for supplies to themselves at their own prices. We would particularly call your attention to the payment of certain warrants to J. W. Mullen for sundry accounts, which were claimed to have been done for the home, but for which there seems to be no receipt but the one of J. W. Mullen. The board has only his statement and receipt for the various claims.

In view of these facts the committee of the Grand Army of the Republic of the department do most earnestly recommend that the names of the present board be not confirmed by the senate, and that that part of the unfinished business of the senate be referred back to the governor, who, we feel satisfied, will appoint a new board that will act with the proper business ability, both in the interest of the old soldiers and the generous public of this state, who are willing to pay any reasonable tax for the benefit of all worthy old soldiers.

Yours in F., C. and L.,

O. SUMMERS,

Chairman of committee Grand Army of the Republic.

Whereas the present board of managers of the Oregon state soldiers' home have shown extravagant and useless expenditure of the funds appropriated for the home; therefore, be it

Resolved by this Committee, That we recommend the nonconfirmation of this board by the senate, and that their names be returned to His Excellency, Governor Lord, for a substitute committee for the supervision of the home, as provided by the law of the state.

Portland, Oregon; adopted January 12, 1895.

O. SUMMERS,

President of the committee for Grand Army of the Republic, department of Oregon.

For ourselves, your committee will say, we most emphatically condemn the system of petty larceny inaugurated and carried out by the board. They seem early in their history as a board to have fallen out among themselves, and while they pilfered from the state, varied the performance by backbiting each other. These men were not appointed for their fitness for the position, the prime object in their appointment being to locate the home, their qualifications and fitness being considered of secondary importance by the power that appointed them.

The Oregon soldiers' home began its existence opposed by many and subject to the criticism of an indifferent or hostile press. In no way could it secure the confidence and good will of the people of the state but by an able, honest, clean, and economical administration of its affairs; but your committee is compelled to say that in its management the very reverse has been the case. It has not been able; it has not been honest; it has not been clean, and it has not been economical. In view, therefore, of all the information obtained and evidence produced to substantiate these undeniable facts, your committee would earnestly recommend that the nomination of the present board of trustees be not confirmed; and while your committee have no occasion to criticise in any manner the treatment of the inmates by the officers in charge, yet there are other and cogent reasons which prompt us to recommend that the higher officers of the home be superseded by others, and that the entire management of this institution be placed under the control of a new administration; and we will go farther and say that we believe that suit should be brought by the proper officer to compel the trustees to account for the money placed in their hands and to return the amount illegally taken by them. But for this trouble in the affairs of the home and cloud upon its management the recipients of its care are in nowise responsible, nor should the legislative assembly be influenced by what has occurred in doing an act of justice to these men.

For want of accommodations the admissions to the home ceased several months since. There are at present in the home fifty-three inmates, and if proper accommodations could be secured the number would be doubled within the year. This class of persons must be supported by the state in some way, but in no way as cheaply as at the home.

It is found that the board of an inmate there is about thirty-four cents per day and the aid received from the general government will nearly cover that amount. The most pressing wants of the institution at the present time are a building for sleeping accommodations and a hospital. Your legislative body should grant these. You might do more; you should not do less.

Respectfully submitted.

B. F. ALLEY,
Committee on part of the senate.
C. P. YATES,
J. S. BOOTHBY,
J. E. BLUNDELL,
Committee on part of the house.

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon,
February 21, 1895. }

Mr. Speaker:

Your special committee appointed under house concurrent resolution No. 5, to examine the books and accounts of the state

treasurer's office, having performed the duty intrusted to it, beg leave to report as follows:

As authorized by your resolution, we employed expert accountants, who, by our direction and under such personal supervision as our legislative duties enabled us to give to the investigation, have found the following facts: A comparison of the entries of cash receipts for the fiscal years 1893 and 1894, each of which has been carefully compared with the cashbook and report of the treasurer, shows that all the money received from all sources has been recorded and accounted for, and that the totals are correct. An examination of the disbursements during the biennial term, and a comparison of the items with the warrants of the secretary of state, show that every payment has been made according to law, and correctly entered on the books. Every note and mortgage in the common school fund, university fund, and agricultural college fund has been examined, the payments of principal and interest compared with the indorsements on the notes and the entries on the cashbooks, and found correct. The notes on hand as per last report were also checked, and the notes or the amounts, in lieu thereof, found to be correct. The securities deposited by the various foreign insurance and express corporations to the amount of two million five hundred and fifty thousand dollars have been inspected by us and found to be as reported by the treasurer. We have also carefully examined the report of the treasurer as printed, and report to have found in the same several typographical and clerical errors; the latter were corrected and appear in the "Errata" on page 278 of said printed report. The totals in said printed report will in some instances be found incorrect, owing to the corrections made as shown in exhibit "A" hereto attached and made a part of this report. The tabulated statements, however, as printed on pages 5 to 8, in the front of the printed report, are correct, and include all corrections of all clerical errors discovered by your committee. Our accountants report that they have been greatly assisted by the willingness of the treasurer and his assistants to furnish all the information and documents needed, thus making the examination complete and exhaustive.

EXHIBIT "A."

hundred and twelve thousand eight hundred and six dollars and sixty-seven cents; to error, warrant No. 8934, W. C. Knighton, one hundred dollars. Total, as corrected, one hundred and twelve thousand nine hundred and six dollars and sixty-seven cents.

Insane and Idiotic Fund.—Total disbursements, as per report, two hundred and forty-eight thousand seven hundred and forty-four dollars and ninety-five cents; by error, warrant No. 2574, Gray Brothers, two dollars and sixty cents. Total, as corrected, two hundred and forty-eight thousand seven hundred and forty-two dollars and thirty-five cents.

Chamberlain, eighteen dollars and ninety-five cents; by error, warrant No. 4351, H. L. Moreland, eighteen dollars and ninety-five cents; by error, warrant No. 4546, A. Gittings, three hundred and four dollars and fifty cents—three hundred and forty-two dollars and forty cents. Total, as corrected, twenty-eight thousand one hundred and seventy-four dollars and ninety cents.

All of which is respectfully submitted.

The special committee, appointed under senate concurrent resolution No. 4, submitted the following report:—

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
February 20, 1895. }

Mr. Speaker :

Your special committee, appointed under senate concurrent resolution No. 4, to examine the books and accounts of the secretary of state, beg leave to report that we met on the twenty-sixth day of January, 1895, and employed, in accordance with the authority granted in said concurrent resolution, two competent experts and two clerks.

They have carefully examined each voucher, and report that they were all made out according to law, each being duly approved, sworn to, and signed. They have compared the warrant stubbooks, abstract-books, and sub-fund books and ledgers, and declare that after making proper trial balances and testing each account and balance separately they found the balances in each case to be correct. They have also checked off the treasurer's receipts for moneys received, four thousand eight hundred and thirty-four in number, filed in the secretary's office, and compared them with the abstract-books and ledgers and assure us that not a single error was discovered.

We found a marked increase in the business of the office within the last two years, nine thousand nine hundred and twenty-four warrants having been drawn during that period against six thousand two hundred and eighteen during the preceding two years. The number of these warrants could, however, be greatly reduced if a different system for the payment of the employés at the several state institutions was adopted. For instance, it is now the custom to make out the payrolls of the insane asylum, have them signed by the employés, and, after they have been audited and approved by the board of asylum trustees, to issue a warrant to each one of the hundred employés. These men have then to go to the treasurer's office, or give written authority to some other person, to draw their money. The plain, economical, business way would be to have these payrolls made out in duplicate, and, after they have been properly audited and approved by the board, for the secretary to issue his warrant for the entire amount of the roll in favor of the superintendent, who then ought to draw the money and pay all the employés at the same time. After having been duly signed by the employés at the time they receive their money, one copy should be retained by the superintendent for his own protection, and the other filed with the secretary of state as a voucher. This same system for the payment of employés ought to be adopted at all the other

state institutions. We would call your attention to what Secretary McBride said upon this subject in his report of 1893: "The estimates for additional clerical service in this office are based upon present necessities; but the amount and cost of clerical service will be increased before the close of the ensuing term unless the law requiring a separate warrant to be issued in payment of the quarterly salary of each person employed in any of the state institutions be amended. A saving in the cost of clerical service could be effected by a law providing that the duly approved payrolls of each public institution should be paid by one warrant, drawn in favor of the superintendent of such institution, whose duty it should be to pay the several amounts due to the individual employes according to such payroll. A bond could be required of the superintendent of each institution, so that the state would be fully protected in every way. I am informed that this is the practice in many states, and there seems to be no reasonable objection to its adoption in Oregon."

As above stated the experts and clerks employed by this committee checked off four thousand eight hundred and thirty-four receipts for moneys received by the treasurer. These moneys are paid by the different parties owing the state to the treasurer and he gives his separate receipt for each payment. These payments are entered into proper books by the treasurer and duplicate receipts filed with the secretary, who, in his turn, records them in books in his office but has no personal knowledge of these transactions or their correctness; his keeping these books is, therefore, though required by law, no check whatever upon the books of the state treasurer and of no practical value.

We find the records in the secretary's office in first-class condition and skillfully kept, and his clerical force attentive, courteous, and competent, but the manner of keeping some of the accounts and books could be greatly simplified and much unnecessary labor avoided.

We find that no account of the session laws, journals, supreme court reports, stationery, fuel, furniture, and other property purchased by or coming into the hands of the secretary of state, has ever been kept or been required by law to be kept since the organization of the state government, and, while the retiring secretary has exercised great diligence in taking proper care of and in the expenditure of all the property and the distribution of the books according to law, it appears to us that the secretary ought to keep an account of all these transactions and render a full report regarding the receipt and disposition of all property belonging to the state and coming in his possession or under his

control. We would therefore recommend that the secretary of state be required to take an inventory of all the property of the state turned over to him by the outgoing secretary, or found in the capitol building of the state, and hereafter make out an annual return, showing the property on hand at the beginning of the year, the property purchased or received during the year, the expenditures made during the year, and the balance on hand at the end of the year. All expenditures ought to be supported by proper vouchers exhibiting how the different articles were used or to whom issued.

Section 2 of article VI of the constitution of the state of Oregon provides that the secretary of state "shall be, by virtue of his office, auditor of public accounts," and subdivision 7 of section 2208 of the laws of Oregon (Hill's annotated codes and general laws of Oregon) provides that the secretary shall "examine and determine the claims of all persons against the state in cases where provisions for the payment thereof shall have been made by law, and to indorse upon the same the amount due and allowed thereon, and from what fund the same is to be paid, and draw a warrant upon the treasurer for the same; and he shall report to the legislature, at the commencement of each regular session, a complete list of all accounts so audited * * *."

We would point out to your honorable body, without wishing to reflect upon the manner in which the provisions of the above law, based upon an article in our state constitution, have been carried out and attended to by the gentlemen that have filled the office of secretary of state, that the principle of making a disbursing officer the auditor of his own accounts and those of his fellow-officers in the state government is wrong and not productive of the best results. The auditor ought to be an officer entirely distinct and separate of and in no way connected with any of the departments, boards, and commissions authorized to contract any indebtedness on behalf of the state. It ought to be the duty of the auditor to examine and pass upon the legality and reasonableness of any claim against the state, contracted by any department or officer of the state, before a warrant is drawn for the payment of the same. But the creation of such an officer would require an amendment to the constitution authorizing the same and defining its duties. In connection with this matter we would refer you to the statements and recommendations upon this subject made by Secretary McBride in his report of 1893.

In conclusion, we beg to report that after a most thorough and searching investigation we found that the office of the secretary

of state has been kept in a creditable, efficient, and proper manner.

All of which is respectfully submitted.

Mr. Keyt, chairman of the committee on public library, submitted the following report:—

REPORT.

HOUSE OF REPRESENTATIVES,
SALEM, Oregon,
February 19, 1895. }

Mr. Speaker :

Your committee on public library beg leave to report that we have made a full and complete inventory of the library belonging

to this state, and find it to contain the number of volumes named and classified below. These volumes are in a fair state of preservation, but as they are in constant use, we would suggest that the librarian be instructed to keep all volumes in good condition, so that the use of same would not endanger the loss of leaves or reading matter. This could be done with a slight addition to the incidental fund. We would further suggest that as there are a great many volumes being injured by being piled upon each other for want of shelf room, and as the present amount of cases are insufficient for the proper arrangement of books, that two additional cases be purchased. We have also made an examination of the expenditure of the incidental fund and find it to be judicious. We have further examined the books required to be kept by the librarian and find them to be properly kept.

The joint committee appointed under house concurrent resolution No. 22, submitted the following report:—

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
February 20, 1895. }

Mr. Speaker :

The joint committee, appointed under house concurrent resolution No. 22, to investigate the management and condition of the penal, reformatory, and charitable institutions of the state, beg leave to report that the duty assigned to the committee has been discharged, and we submit statements as we found the several institutions we investigated, viz., orphans' home, Portland; baby home, Waverly Addition to the city of Portland; Magdalene home, Portland; boys' and girls' aid society, Portland; refuge home, Portland; state reform school, Marion county; school for deaf-mutes, Salem; state insane asylum, state penitentiary, and blind school.

Our visits were made at times when we were not expected, and we found everything without exception in each institution orderly and well kept.

PORTLAND ORPHANS' HOME.

This institution was organized in 1867. It is under the management of the Ladies' Relief Society of Portland. The home is on a block of ground on Corbett and Lane streets, in the southern part of the city, which was donated by Mr. Villard. The building is a two-story frame, attic, and basement. The rooms are large, airy, well heated by furnace, lighted, and well adapted for the purpose for which they are used. The capacity of the home is one hundred. They now have ninety children—forty-two boys and forty-eight girls. There are seven employés, the matron, three nurses, one sewing woman, and one laundryman. The matron, Mrs. Woods, who has been in charge for nineteen years, thoroughly understands the work she has in hand, and we found everything orderly and neat. Mrs. Woods kindly showed us through every nook and corner, from the numerous playhouses in the attic, inhabited by whole families of dolls, small farms, etc., to the well filled storerooms in the basement. Mrs. Woods said: "So many children are brought here and never called for, never inquired after; in fact, deserted. Our price for the care of children, when parents are able to pay, is eight dollars per month, but we are always glad for any amount which they can pay. As long as the parents are contributing towards the support of their children, it is easier to keep track of their parents, and in after years assist the children to trace them up." The Ladies' Relief Society do all in their power for the comfort and

care of these homeless children, who come from all parts of the state and some from adjoining states. Most of them are brought voluntarily by the parents, who are too poor to make a home for them, or who are working and are willing to pay something for their support. As soon as the children are of school age, they are sent to the public school, and as soon as possible permanent homes are found for them. The home has an endowment fund of thirty-five thousand dollars. The last eight years they have received from the state four thousand dollars, five thousand dollars, three thousand dollars, and five thousand dollars, respectively. The last appropriation from the state was in July, 1893. Many donations are received from the general public, but at the present time there is little or nothing in the treasury. They are often compelled to borrow. Mr. Ladd and Mr. Failing have at different times kindly loaned this institution money without interest. Their schoolbook bills average from twenty-five to thirty dollars per year. A record is kept of all children received, parentage, age, names, etc., and disposition made of the children. A visiting committee of the society visits the home at regular intervals, and monthly reports are made to the society. Many children who have become grown and gone out into the world have come back in later years and thanked the matron and management for the care of their earlier youth and training. A large hospital stands a little distance from the main building, and is kept ready for use at all times, though we were informed there was very little sickness among them.

BOYS' AND GIRLS' AID SOCIETY.

This home is situated on Hawthorn avenue and Twenty-seventh street, and is in charge of Mr. Gardiner, superintendent. There are at the present time thirty-three inmates—eleven girls and twenty-two boys. There are two employés besides the superintendent. The children are well fed, clothed, and sent to school until permanent homes can be found in good responsible families for them. Children whose parents are not fit guardians, children taken in off the streets, abandoned children, those who have fallen into the hands of the law for petty crimes, are provided for in this institution. A record is kept of all children, their previous history, and what disposition is made of them. The society has bequests amounting to forty thousand dollars. They have had some state aid, but their support is derived principally from private sources.

REFUGE HOME.

This is an institution conducted by a branch of the Woman's

Christian Temperance Union of Portland and is situated at No. 249 East Second street. Mrs. Riggs is superintendent. It is an institution to provide a home for fallen girls, who show a disposition to reform. It is supported mostly by subscription. The state has given two thousand five hundred dollars annually for the past four years. The matron informed us that their family consisted of nine girls and one in the hospital. The matron said that "most of those who came only wanted an opportunity to do right; that they knew nothing of work or how to do it. They are taught housework and sewing, and, for a time, had a few hours study each day. The girls require good influence. We find a few incorrigible. In four years' time we have cared for over four hundred girls. Out of that number about fifteen have run away and all but three have come back. We have no trouble whatever in governing them."

BABY HOME.

This is an institution to provide a home for motherless and neglected babies. This home is located in Waverly Addition to the city of Portland, on the Richmond car line, on a tract of land donated for this purpose by Mr. J. W. Kern. The expenses are defrayed principally by voluntary contribution. They have a three-story frame building. The house is a suitable one for the purpose for which it is used. The building is heated by hot water, well ventilated, airy, and light. A physician gives her services free, calls regularly every other day when necessary. The home seems well managed in every way. They now have in their care twenty-five babies, ranging from three months to three years. None are taken under three months, and they are not kept longer than three years, when they are turned over to the orphans' home. They have received some state aid, their support being mostly from private sources. Babies are received from all parts of the state. The institution is entirely out of debt. Everything is new and looks pleasant and healthy. Five nurses are employed. The expenses range from three hundred to three hundred and fifty dollars per month.

MAGDALENE HOME.

The Magdalene home, situated on East Twentieth, between Hoyt and Irving streets, is under the control and management of the Roman Catholic Sisters of the Order of the Good Shepherd. It is an institution for fallen and incorrigible girls. At present there are twenty-four inmates, the eldest being nineteen years of age, the youngest fourteen, and four babies. A school is conducted in the building. The girls are educated and furnished

with homes when reformed. The institution has received some state aid but is supported principally from the order. The property was bequeathed the order for this purpose by a Catholic father. Everything about the institution had an air of neatness and cleanliness. Thus far, they have cared for many unfortunates. Many of them when brought to the institution knew nothing whatever about work or moral training. By Christian example, and taught correct principles, many are reclaimed and become useful members of society.

OREGON STATE REFORM SCHOOL.

The Oregon state reform school is Oregon's youngest purely state institution, but with a few additions, it will be as well equipped for keeping comfortably, training, and reforming boys as many of the schools in older states that have been established for a quarter of a century or more. This school was open for the reception of boys only three years ago last November. It has now under its control one hundred and seventy-five boys, one hundred and nine of which are in the school. The remaining sixty-six are out upon parol and nearly all these are reported as doing well.

The boys in the school do all the work of the farm and in the buildings, under the direction of the sixteen officers now employed, eight of whom are ladies. They chop the wood (about seven hundred cords annually) used by the institution, do all the work on the six-hundred-acre farm belonging to the school, including plowing, teaming, milking, etc. They attend to about eighty acres of garden, raising all the vegetables used at the institution, and always having an abundance of them. They raise and butcher their own pork, and furnish their own eggs. They make their own clothing, even to their caps and uniforms, and repair their own shoes. They do their own cooking and dining-room work, washing and mending; in fact, as was said above, all the work about the institution is performed by the boys. The prime idea of the training is work. It is industrial training. This is in order to teach the boys habits of industry, and also how to work, so that it will not be a hardship for them to work upon being paroled, and upon becoming factors in the great struggle for existence.

The superintendent of the school and all connected with its management are anxious to extend this industrial system of industrial teaching. They now have a splendid industrial building furnished in rough, with massive brick walls, surmounted by a brick tower containing a tank with twenty-five thousand gallons of water. They wish to finish this industrial building and

furnish it with laundry, blacksmith shop, carpenter tools, shoe shop, more complete tailor shop, laundry dryroom, etc. They must also have a bakery, hospital, better fire protection by connecting with the large tank, more and better farm teams, machinery, cows, sheep, etc., and better fences and roads so as to make more economical use of their farming and gardening lands. They need, also, some books suitable for boys with which to start a library. They need, also, spring water for domestic purposes, for their only present supply is from Mill creek, which is the cause of much fever during the summer months among the boys.

We consider these things necessities. They will add to the efficiency of the institution for the purpose for which it is maintained, and to its economical conduct. This latter fact is fully evidenced by the statement to the board of the superintendent, that, with these additions, the school can be conducted for the next biennial term on the same appropriation as for the last, although the average attendance will surely be twice as large. This is eighteen thousand dollars a year, or thirty-six thousand dollars for two years, and with one hundred and fifty boys, will make the per capita expense as low as the average throughout the land, which we consider very creditable for an institution so young. With these additions mentioned, and with an economical, working, pushing administration, the per capita expense will soon be the lowest of any school in the land, and with the training and keeping of the boys as well attended to as in the best institutions. These are the reasons why we consider these demands modest. Give the boys the best things to work with and they will more nearly support themselves now and hereafter.

We find the officers very kind and painstaking with the boys. The boys work four hours every working day and go to school four hours. The school is like a regular graded public school. We find the boys under good moral training. The officers, by precept and example, pay great attention to the moral and religious training of those under their charge. They have Sunday school and church every Sunday, and prayer and temperance meeting on two separate evenings of every week. Being kept in such an atmosphere, the boys, being like all other people largely influenced by their surroundings and creatures of habit, become better by the very force of circumstances. We consider the discipline almost perfect. There is no indication of laxness or negligence in any quarter, but there is a satisfaction shown in the bright faces and happy demeanor of the boys indicating that it is tempered with lovingkindness.

We wish to dwell upon the necessity of better fire protection for this valuable property. It is almost without such protection, and this should have immediate attention.

Mr. Hendricks, superintendent in charge, and his assistants were courteous and attentive in showing us about the place. We were very much pleased with the appearance and conduct of everything.

OREGON STATE INSANE ASYLUM.

At the Oregon state insane asylum we patiently and thoroughly inspected the asylum in its every department as far as time would permit. We were informed there are one thousand and six patients at present, divided among twenty-six wards, including those at Cottage Farm, five miles from the main building, of whom one hundred and two are considered curable, two hundred and thirty-six doubtful, and the remaining six hundred and sixty-eight incurable. There are more than half the inmates classed under the head "mania," next in number comes the "melancholia," then the "dementia," and the remainder included under the heads of epileptic insanity, morphinomania, imbecility, idiocy, and general paresis, in the order named. There being between fifty and sixty epileptics suggests the idea that ere long this unfortunate class will be entitled to separate care and management, as is customary in other states.

In every department, from the evident humane care of the patients to the smallest details of methods, we found order, system, and cleanliness, and everything apparently conducted for the best interest of the patients. The supplies of food are abundant, and, so far as our limited observation could determine, well prepared; the beds and bedding were of the best; ventilation and hygienic conditions satisfactory. The special provision for the sick and infirm provided in the infirmary recently constructed, is noteworthy and constitutes a desirable and beneficial feature in the treatment of the insane. The large tract of land connected with the institution is being vigorously utilized, resulting in benefit to those under treatment by furnishing healthy occupation, as also in contributing supplies for the maintenance, thus lessening the financial burden.

We have examined the itemized appropriations asked for by the superintendent in his biennial report, and indorsed by the asylum board, and earnestly recommend their being granted, recognizing their real necessity in every particular.

Additionally, we take the liberty of recommending certain improvements that commend themselves to our judgment as being desirable and meritorious, even during the present hard times. We think it economy that the roof of the infirmary building be again painted for its protection and preservation. Cost, two hundred dollars.

Closets, one for males and one for females, should be con-

structed in the back yards of the asylum for use, especially in the summer season when these yards are occupied by the patients for recreation and outdoor exercises. These could be substantially built for two hundred dollars.

An elevator should be placed in the administration or center building. The second and third floors each accommodate about three hundred patients and employes, besides a lesser number on the fourth floor, and a saving of health, strength, and time could be made thereby. The women, especially, are worn and injured by such climbing of stairs, to the detriment of their health. Cost, one thousand dollars.

A telephone system to the several wards and departments would simplify and facilitate business, and keep the scattered parts of this extensive institution more closely in hand, the desirability of which is self-evident. A sufficient number of telephones could be bought outright for five hundred dollars.

Dr. L. L. Rowland, superintendent, and Dr. W. T. Williamson, assistant, gave us every opportunity to examine the workings of the institution. The grounds and buildings were scrupulously neat and well kept. The patients seemed to be endeared to these gentlemen, one of the best evidences that they are pleased with their treatment.

OREGON STATE PENITENTIARY.

At the Oregon state penitentiary we found the building in good repair, but a new system for heating the building must be added, as the boiler and heating apparatus now in use are almost worthless and will not last through another winter. The superintendent, Hon. G. S. Downing, will report other improvements needed to the committee on ways and means. The penitentiary has three hundred and fifty-five inmates. The general health of the prisoners is good, only three in the hospital, and they have chronic diseases. The prisoners are well and warmly clothed and have plenty of bedding to keep them warm. They are well fed, three meals per day, of good wholesome food. The discipline is very good. The prisoners are obedient and punishment is now very seldom needed. One hundred and thirty-five work in the stove foundry and earn a small amount of money for themselves for good work, which some save and use to buy luxuries with, such as tobacco. The moral influence is good. They have one sermon and sometimes more per week. They have a good choir composed of prisoners and render some fine vocal music. The prison is certainly well managed. Everything is done systematically even to the smallest detailed duties of the officers and inmates, which are carried on each day with the same persistency.

Mr. H. H. Thompson, chief clerk, Messrs. J. W. Berry, warden, and J. H. Cavanaugh, assistant warden, were very courteous to us and facilitated our observation and examination.

OREGON INSTITUTE FOR THE BLIND.

The new building for the Oregon institute for the blind is in every respect adapted to its purpose. The capacity for the same as far as finished is about thirty-five. It will be four or six years before additional room will have to be provided. The full capacity, by finishing the third story inside, will be about sixty. The building will then answer for all practical purposes for twenty-five years. There are twenty pupils in attendance now. This is the highest number that was ever enrolled at one time. The growth of the school is slow but steady. The course of study as prescribed by the board is practically followed. At the end of this year two will graduate in the advanced course and one in the common school course. Besides the work of the literary and musical departments, the home virtues of sewing, knitting, crocheting, etc., are taught to the girls, while all are taught to make hammocks. Broom-making will also be introduced in the near future. The appropriations of two years ago, with a small deficit, were prudently expended in the construction of the new building and furnishing it so neatly. Everything is kept in the best possible order. The "working home for the blind," as suggested by the superintendent, is a necessity, and as this seems to us the only available plan to meet the situation, the suggestion meets with our approval.

The superintendent of the school is E. S. Bollinger, who has been in the school over three years, and from the appearance of everything about the place and the executive ability displayed, he is a very valuable person to take care of and instruct the blind. We regret that our time was so limited, as we were very much interested in the work. We were fully satisfied that under the charge of Mr. Bollinger the best of care and attention to make the pupils as happy as circumstances would permit would be given them.

SCHOOL FOR DEAF-MUTES.

The pupils and officers of the Oregon school for deaf-mutes are still occupying their old quarters in the city of Salem, notwithstanding the new building is completed. This is both on account of lack of funds with which to furnish the same, and the recent completion of the new building rendering it unwise to occupy the same immediately. The officers and pupils of the school are exercising a commendable amount of patience in ac-

commodating themselves to their present surroundings in the old buildings, which are composed of five plain wooden structures destitute alike of convenience, safety, sightliness, or capacity for the number domiciled in them at present.

The school department is doing a noble work for such unfortunates as are received under its tuition. Mutes differ from other children in their untutored condition in this respect, viz., that they have no language, no means of communicating with their fellow beings other than by a few vague signs, and if left to remain in this untutored condition would sooner or later, if thrown upon their own responsibility, become proper wards of the state or a stumbling block in society. The discipline and instruction afforded by the school relieves them of this servitude, by giving them a good knowledge and use of the written English language, which is the key to all knowledge, and further usefulness in life. Those pupils possessing special adaptation are taught to read the lips and natural speech which to a mute is a rare accomplishment. The school at present also gives instruction in printing, broom-making, sewing, needlework, etc. As soon as appropriations will permit other industries, such as shoemaking, tailoring, carpentering, cabinet-work, or engraving, should be taught, and which in like institutions elsewhere are looked upon as among the essentials of school discipline.

The school, situated as it is, and receiving children from six to twelve years of age, is essentially a large family with the superintendent and matron at its head. Each little tot in the school represents a happy family at home, and who are anxiously concerned in the welfare of their little one in school, and in many cases several hundred miles away. The responsibility resting upon the management is at once apparent, and in no case should such an institution be put under the control of those who have not the proper sympathy for the deaf. The number of pupils enrolled the present term is sixty. There are probably twenty more children in the state eligible to school privileges. The school is divided into four classes, managed by as many teachers. It is estimated that it requires as much labor to teach six mutes as twenty hearing children. The mutes are as a class very quick to learn, and, after being educated, become respectable citizens, esteemed by the public at large.

The school is under the superintendency of Mr. J. B. Early, a gentleman well qualified for the position. By his humane and kind disposition he endears and attracts his pupils to a forgetfulness of their unfortunate condition.

Mr. Cole, chairman of the special committee, appointed to inspect the state normal school, submitted the following report:—

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon,
February 22, 1895. }

Mr. Speaker:

Your special committee, appointed to inspect the state normal school of Monmouth, Polk county, Oregon, beg leave to report that we have visited said school of Monmouth, and thoroughly

investigated the school and its financial condition. We found the school and its management excellent in every respect. We find that the moneys appropriated for the use of the institution have been carefully accounted for and economically expended.

The method of bookkeeping is simple and efficient; the different apartments were neat and comfortable as possible, under the circumstances of limited means and small school buildings.

The present method of heating the building is very defective and at the same time expensive. Your committee recommend an appropriation of not less than five thousand dollars for the purpose of heating the building by steam, and to do away with the stove system, which is injurious to the health and very expensive. Your committee are of the opinion that some of the classes are too large, there being as many as eighty pupils in some classes; we therefore recommend the addition of one more teacher. The desire for a higher education is very apparent, from the strenuous efforts exerted by the students to obtain it. The tone and discipline of the school at Monmouth is excellent and speaks well for the efficient staff of teachers and all connected with the school. The school is turning out very efficient teachers, which are sought after from all parts of the state.

Below you will find the financial condition of the state normal school of Monmouth, which is respectfully submitted.

Whereas the secretary of state in his biennial report to this legislature calls attention to the fact that the first and second edition of a pamphlet entitled "The Resources of Oregon," are entirely exhausted, having been distributed abroad for the purpose of inducing immigration to this state; and, whereas, there is great demand for literature treating on the resources of this state from parties abroad who are contemplating seeking homes in the west; and, whereas, the report of the Oregon world's fair

commission to this legislature contains much information that will prove of value to intending immigrants if revised and published by authority of the state for free distribution; therefore, be it

Resolved by the House, the Senate concurring, That the treasurer of state be and is hereby directed to cause to be published twenty thousand copies of a revised edition of the report of the "Oregon world's fair commission" to this legislature, the said report when revised to contain information treating upon the resources, developed and undeveloped, of our fair state; the said report, when revised, to contain also illustrations of the Oregon exhibits at the world's fair.

Resolved, further, That the treasurer of state be and is hereby authorized to secure the services of some capable and competent person to perform the work of revision, and he, the said treasurer of state, is further directed to cause the said revised report to be distributed free and to the best advantage, to the end that the greatest benefit may redound to our state in directing the attention of those people abroad who are desirous of seeking profitable investment and future homes.

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
February 23, 1895. }

Mr. Speaker:

Your committee, appointed under house concurrent resolution No. 3, to examine the books and accounts of the board of commissioners for the sale of school and university lands have completed our labor, and beg leave to report as follows:

We have, with the assistance of competent accountants, pursued our investigation in as thorough manner as the time at our disposal would permit. The accounts for the lands sold have been carefully compared with the entries in the cashbook, and

also with the indorsements on the notes given for deferred payments, and the entries for cash sales with the consideration named in the deeds. We have carefully added all the columns of entries in the cashbook and compared the totals with entries in the ledger, and the credits in the ledger with the state treasurer's receipts, and these with duplicates on file in the office of the secretary of state. We have found the cash accounts absolutely correct and all moneys accounted for, the clerical work of said office well performed, and the system of accounts and general manner of conducting the business of the office to be plain, complete, and comprehensive, reflecting credit upon Mr. Geo. W. Davis, clerk of the board. We find the old school land tract books in bad condition and renew the recommendation of the committee of last session. We have also examined the applications to purchase state lands, and have found them to be in due form and in accordance with the requirements of law.

T. J. CLEETON,
Chairman.

On motion of Mr. Cleeton, the report was adopted.
Mr. Myers introduced house concurrent resolution No. 34.

HOUSE CONCURRENT RESOLUTION NO. 34.

The special committee appointed to visit the state university, submitted the following report:—

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon,
February 18, 1895. }

Mr. Speaker:

Your special committee, appointed to visit the Oregon state university, located at Eugene, Oregon, respectfully submit the following report:

We have visited the university and examined into the workings of the various departments as thoroughly as the limited time at our disposal would permit, and do not hesitate to say the university is a credit to the state, and first-class in all respects. We find the buildings and grounds, and the rooms of the university neatly kept; the classes all conducted in a very systematic manner. There has been a new dormitory built during the past year. It is an excellent building, and speaks well for the economic way the money was expended. We find there is no flag over the building, and there has been none for the past term. An elegant flag has been donated to the institution by the Grand Army of the Republic, and we would recommend that the flag be raised each day. The gymnasium is well equipped and thoroughly supervised by a competent director. We find the instruction in all the different branches to be thorough and the attendance very good. We believe the appropriation made the last session has been wisely and judiciously expended, and speaks well for the financial management of the institution.

CLARENCE COLE.

J. H. McCLUNG.

The special committee, appointed to investigate the state normal school at Weston, submitted the following report:—

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
February —, 1895. }

Mr. Speaker:

Your special committee, duly appointed, to inspect the state normal school at Weston, in eastern Oregon, beg leave to report that we have visited said school, and thoroughly investigated the school and its condition, and find the school and its management excellent in every respect. We find that moneys appropriated for the purpose of the institution have been carefully accounted for and economically expended. The method of bookkeeping is simple and efficient. The different departments visited were neat and comfortable under the circumstances of limited appropriations and small school buildings.

We recommend an appropriation be made of not less than three thousand dollars for the purpose of heating the building by steam. The present system of stoves is detrimental to the health of the students, and from an economical standpoint very expensive, therefore we recommend the use of steam as being essential for the health of the students and a great saving to the

state. Your committee are of the opinion the school of Weston is doing excellent work in the line of higher education, and redounds to the credit of its management and the good of the state of Oregon. Below is the tabulated report of the financial standing of the state normal school of Weston, which is respectfully submitted.

CLARENCE COLE.
T. A. WRIGHT.

EDUCATIONAL FUND.

The total amount of the Common School Fund was as follows on January 1st of the years mentioned:—

1885.....	\$ 868,735 16
1887.....	1,059,409 01
1889.....	1,756,700 90
1891.....	2,203,554 86
1893.....	2,418,636 71
1895.....	2,450,521 19

The interest from such funds has been distributed as follows:—

	Per capita.	Total.
1890.....	\$ 145	\$ 144,372 75
1891.....	145	153,151 90

1893.....	140	168,903 00
1894.....	87	107,693 82

On January 1, 1895, the total amount of the other trust funds were as follows:—

Agricultural College.....	\$ 129,752 12
State University.....	105,345 80

Interest has been paid during the past two years on such funds:—

Agricultural College.....	\$ 16,751 79
State University.....	12,673 61

The amounts loaned from the school funds for the last three biennial terms are as follows:—

1889-90.....	\$ 911,213
1891-92.....	711,160
1893-94.....	536,239

From the above figures it will be seen that the very same cause which is stagnating our general industries and impoverishing our people, is laying its impious hand on the school fund of the State by lessening the values of the securities on which it is based, and diminishing the amount apportioned to the common schools for their support.

Swamp land, certified to the State in 1893-94.....	2,038.32 acres

LIEU SCHOOL LANDS.

In the Cascade Reservation there are about 200,000 acres of land embraced in sections 16 and 36 for which the State is entitled to that amount of lieu land, which may be selected from the best portions of the public domain. The price of school lands, under the law, is \$1.25 per acre, and as these lieu lands are really worth more, I have steadily refused to allow one single acre of school lands in that reservation to be used as a basis for lieu lands until the legislature can change the price of such lands to \$2.50 per acre. If this change is made, about \$250,000 will go into the school fund, which

amount, if the law is not changed, will go into the pockets of speculators.

PUBLIC IMPROVEMENT.

During my incumbency of office the State of Oregon has most materially lengthened its cords and strengthened its stakes in regard to all of its public institutions. The capitol has been entirely completed and newly roofed, and all of our public institutions are fully equipped for all requirements, not only for the present, but for the immediate future. The asylum now owns 1,200 acres of land, the penitentiary 169 acres, the reform school 600 acres, the deaf-mute school 100 acres, and the Eastern Oregon asylum 620 acres of valuable land. During the last eight years there have been expended for land and improvements the following amounts:—

Penitentiary improvements.....	\$ 47,615 20
Asylum improvements.....	341,815 10
Capitol improvements.....	147,956 75
Reform School improvements.....	166,816 59
Agricultural College improvements.....	88,709 80
State University improvements.....	25,000 00
Mute School improvements.....	32,497 00
Blind School improvements.....	12,226 25
Eastern Oregon Asylum.....	25,381 05
	<hr/>
	\$ 890,017 74

Of this amount \$304,164.33 were expended during the last two years.

All of the public buildings are first class, and a levy of \$80,000 has been made, which will be sufficient to start the Eastern Oregon Asylum on the cottage plan and furnish additional cells for the penitentiary. All these improvements have been made during these hard times, and the State of Oregon is out of debt, although there is due, on January 1, 1895, and unpaid to the State from the several counties the sum of \$242,597.89.

But this is not the full extent of public improvements. During the last eight years, there have been expenditures for wagon roads and a portage road, and the five per cent and direct tax funds have been distributed among the several counties, so that the total amounts of expenditures on account of public improvements is as follows:—

Public land and buildings.....	\$ 890,017 74
Wagon roads.....	116,000 00
Five per cent and direct tax funds.....	111,576 76
Portage road.....	63,801 97

THE STATE FOUNDRY PLANT.

Sixty-five thousand dollars was appropriated by the last legislature for the purchase of the foundry plant at the penitentiary.

Forty thousand dollars were paid for it and the balance was put into stock for the business. Close following the purchase came the business depression which affected all industries, and which very naturally depressed the demands for the foundry products. As a result the foundry was run on limited time and with limited profits. The business since the State assumed control up to the first of the year shows a profit of \$16,872.80, and allowing forty cents a day for convict labor, it still shows a profit of \$4,028.24, which is a much better exhibit than a very large portion of business firms in Oregon can show which have been doing business outside the penitentiary walls.

THE PARDONING POWER.

Some criticism has been made in regard to the exercise of the pardoning power and it has even been asserted that such power should not exist. That power is the highest and most necessary prerogative in a civilized government. If courts and juries were infallible there would be no necessity for its exercise, but so long as they are not infallible, so long there is an absolute necessity for the lodgment somewhere of that very necessary power. In the great majority of the cases in which I have exercised executive clemency, aside from those earning time as trustees, it has been upon the recommendation of the judge, jury, or prosecuting attorney. I have endeavored in all cases to exercise that high prerogative conscientiously and without any regard whatever for newspaper cavil or popular clamor.

FORMER RECOMMENDATIONS.

While I shall not presume to make any recommendations whatever to this legislative assembly, I will, however, mention those recommendations which I have formerly made, and concerning which no legislative action has been taken

1. A change in the assessment law compelling, under penalty, all notes not annually given to the assessor and stamped by him, to be one half forfeited to the school fund.
2. The abolition of all the unnecessary commissions.
3. A law establishing maximum rates for railroad and telegraph companies, fixing passenger rates at 2½ cents per mile, and prohibiting the use of free passes.
4. A law allowing municipalities to fix maximum rates on all local monopolies.
5. A law authorizing the governor, in case of violation of State

laws, to employ a person to secure evidence and commence prosecution in the courts for the punishment of offenders.

6. A law giving to all State, district, and county officers a fixed salary, or establishing a maximum compensation.

7. A general municipal incorporation law applicable to all cities.

8. A change in the road law so as to secure good roads.

9. A law providing for the arrest and punishment of armed men in private employ.

10. The passage of an inheritance tax law.

12. Authority to the school commissioners to withhold from any county its school fund until the State taxes from said county have been paid to the State Treasurer.

13. The creation of a State auditing board consisting of the three principal State officers.

14. No further illegal appropriation of money by joint resolution.

15. A change in the law relating to the conveyance of criminals and insane persons.

16. No State appropriation for the militia, leaving to the several counties the support of their own companies.

17. Enactment of a registration law for cities of 5,000 inhabitants and over.

18. Purchase of the Willamette locks or reduction of toll fifty per cent.

19. No appropriation for State or district fairs or a just distribution of moneys now appropriated to the several counties.

20. Repeal of the specific contract law, and making void all contracts discriminating against any lawful money.

21. Abolition of all fish traps, wheels, and seines.

22. Fixing the price of school lieu lands at \$2.50 per acre.

23. No further appropriation for other than common schools.

24. Instructing our delegation in congress to secure a restriction of the jurisdiction of the inferior federal courts to what it was under the judiciary act of 1789, or to confine it exclusively to admiralty and maritime cases; or, better still, to abolish those courts entirely.

CONCLUSION.

Grateful to the people for their bestowed confidence, thankful to all my associates for their uniform courtesies, and wishing for the incoming administration abundant success, I now relinquish, with a conscience void of offense, the great trust assigned me, sincerely imploring the blessing of Almighty God upon our beloved Commonwealth.

INAUGURAL ADDRESS.

INAUGURAL ADDRESS.

Gentlemen of the Senate and House of Representatives:—

Trusting for guidance and wisdom from Him who doeth all things well, I appear before you, in assuming the duties of the office of governor of this State, to which I have been chosen by the suffrages of the people, with a profound sense of my obligations and responsibilities, to make such suggestions and recommendations in reference to the affairs of the State as seem to be appropriate and expedient. The duty devolved upon the governor by the constitution, to communicate to the legislature the condition of the State and to recommend such measures to it as he may deem expedient, would seem more properly to belong to the retiring governor, whose official experience during his term enables him to acquire a special knowledge of the various institutions of the state and the measures deemed essential to promote its progress and prosperity, which particularly qualify him for the performance of such duty, than to the incoming governor, who, just called from another occupation which has absorbed his time and attention, could hardly be expected to possess the kind of knowledge which would qualify him to enter into a consideration in detail of the various matters of state, or to recommend measures of special significance for the development of its interests and the wants of its people. But, be that as it may, I trust it may not be inappropriate for me to avail myself of this occasion to extend to the retiring governor—who brought probity and ability to his office—our thanks for many acts of public merit and our best wishes for his personal happiness and prosperity; and, also, on my own behalf, to express to the people of the State, through you—their chosen representatives—my grateful appreciation of the distinguished honor conferred upon me, and my earnest hope to perform the duties devolving upon me with fidelity to their interests and with credit to the State, to the end that they may have no cause to regret the generous confidence reposed in me.

RESOURCES OF THE STATE.

I greet you, gentlemen of the legislature, at the beginning of the new year, although the skies are not bright with promise, with an

abiding faith in the future of Oregon. Our State is endowed with great resources and natural advantages, the development of which under industrial influences will insure its growth and enrichment. Its soil is fertile, and its fields yield generous harvests; its ranges are excellent feeding grounds for the raising of stock; its mines, though only partially developed and utilized, are rich in mineral wealth; its forests are studded with an almost inexhaustible supply of timber; its waterways are extensive, and afford unequalled advantages for commerce; its harbors are safe and commodious; its water powers are unlimited in capacity and extent, offering unrivaled facilities for manufacturing enterprises; its climate is healthful, and its plains and mountain ranges combine beauty and grandeur of scenery. Here within our own borders are all the material elements and advantages that attract men of enterprise and capital to make investments in commercial and business activities and to establish manufacturing and mechanical industries, which in the progress of time will give employment to many laboring people, build up towns and cities, increase our wealth and population, and lay deep and strong the foundations of our general prosperity. Already considerable capital has been invested in our State, devoted to the enlargement of some of our existing institutions, and to the creation of new enterprises and business ventures. Many railroad lines have been constructed within our territory that have afforded an outlet for our products and opened up additional avenues for trade and commerce. In the meantime, the growth of our cities and towns has been steady and rapid, the value of property has greatly increased, and improvements of a public and private character have marked our advancement. All around us there are tangible evidences of the industrial activity of our people and the growth and development of our State, and with national legislation not unfavorable to us the future of Oregon is full of promise of a rich inheritance to its inhabitants.

CAUSES OF DEPRESSION.

But, unfortunately, some national legislation at first threatened, and some since enacted, has had the effect to cripple the industries of the country, cause depression in the value of property and its products, disturb business relations, stagnate trade and commerce, create distrust and uncertainty in our monetary affairs and a deficit in the national treasury, abridge the demand for labor and render its employment unremunerative, by reason whereof, the country is plunged into a profound financial and commercial depression, which grievously burdens our people and serves to retard the general progress and development of the State. This is a condition of things

from which the country can expect no permanent relief until wiser counsels shall prevail in the management of our national affairs and induce legislation calculated to protect the industrial interests of our people, and, at the same time, by its offer of reciprocal advantages, retain and foster trade with foreign nations.

NECESSITY FOR ECONOMY.

Under these circumstances, when the opportunities for business and labor are contracted and scarce; when the farmer, though his harvest be abundant, finds no profit in his crop; when hard times are upon us, rendering it especially difficult for the laboring masses to make comfortable provision for their families; when all classes engaged in trade or business are husbanding their resources and practicing a rigorous economy to avoid loss and preserve their commercial standing, it behooves you, upon whom rests the authority to levy taxes and direct the expenditures of the public moneys, to make no appropriation of them except it be for a public purpose and its necessity be clearly shown, and to withhold all appropriations which will bear delay, or can be postponed, in order that the burdens of the people may not be unnecessarily increased and their property subjected to a tax lien to defray needless public expenditures. It is not only desirable that economy should characterize all your appropriations, but at the present time it is absolutely indispensable to the public welfare. No good citizen will find fault with a public expenditure which is essential to the public service, but all will feel aggrieved, and have a right to complain, when the expenditure authorized is unnecessary or extravagant. The people have a right to require that public business should be conducted on the same principles of economy that characterize prudent men in the management of their private affairs. The reason as well as the necessity for the practice of economy is the same in one case as in the other. Extravagance, whether public or private, is a demoralizing influence which impoverishes States and bankrupts individuals. No officer, whatever may be his position, has the right to be generous at the public expense. Any disbursement or appropriation of the revenues, the necessity for which is not shown to be essential for the public good, is a flagrant injustice. Retrenchment is the mandate of the people, and the chief plank in the platform upon which you were elected. The day is come, and the hour is at hand, when your promise to reduce public expenses, wherever it can be effected without detriment to the public good, must be fulfilled. Your word is pledged for it, and good faith requires that it should be kept.

ABUSES SHOULD BE CORRECTED.

Abuses, if any have grown up, must be unmasked and extirpated root and branch. No department of State, nor any of its institutions, is too sacred for you to invade with the view of ascertaining its condition, its needs, its practices, whether good or bad. How are you to know where to cut off unnecessary expense, or to withhold a needless appropriation, or to reduce to a minimum a needed one, or to destroy a hidden emolument, or to abolish a useless office, or whether abuses exist, without making yourselves acquainted with the true condition of the State and its institutions? It is true that much of the knowledge of public affairs with which you will be charged or presumed to be aware must come through committees to whom is confided the business of investigating and reporting, often with such recommendations as they deem proper, upon the condition and needs of the various institutions of the State. This involves the assumption that the members of the committee will be selected with reference to their fitness and ability to perform the work to which they are assigned, and that such work, whatever it may be, will be thoroughly and not perfunctorily performed. I trust that this assumption may hold good in fact, for I sincerely hope that no perfunctory report will come from any committee of this legislature. There will, also, be submitted for your information the reports of the different officers having charge of the public departments and institutions of the State. I bespeak for them a fair and candid hearing, believing that these officers are animated by the best motives for the public good. I earnestly hope that you will carefully examine their reports with a view of giving deliberate consideration to the suggestions contained therein, keeping in mind, at the same time, the interests and the needs of the people.

I make these suggestions, gentlemen, to impress you with the necessity of using all the means of information in your possession to qualify yourselves for the intelligent performance of your duty and to enable you to provide such legislation as will secure needed reforms, reduce the public expenditures, and put at a minimum all needed appropriations of the public revenue. It is in your power to accomplish these objects. The duty and responsibility of legislation rests immediately upon you. To you is committed the sole authority of making laws for the protection of the life, liberty, and property of the citizen, for the levy and collection of taxes and directing the expenditures of the public revenue for the general welfare, the education of our youth, and the care of the unfortunate, and for the support of our institutions of learning, of charity, and of reform and punishment. To a great extent, the honor and wel-

fare of the State and the prosperity and happiness of the people depend upon your action. You cannot escape accountability in the manner in which you discharge your high trust. You are bound by the will of the people and owe them a conscientious performance of duty according to your best ability. They will scrutinize and review and pass upon your official acts. Do not disappoint their expectations of relief from unnecessary taxation. Make a resolute effort to reduce the burden of taxation to the lowest possible limit consistent with a wise and economical administration of the public business.

ASSESSMENT AND TAXATION.

Assuming, then, that your efforts will be directed to the accomplishment of this end, it is equally important and necessary, after the amount of money to be raised by taxation for the support of the State, economically administered, is ascertained, that our law regulating the levy and collection of taxes should distribute its burdens ratably so as to insure uniformity and efficiency of our tax laws. If these defects exist, they should be speedily remedied, for equality is the essence of the right to take the citizen's property for the support of government. Our constitution makes it the duty of the legislature to "provide by law for uniform and equal rate of assessment and taxation." To secure uniformity and equality it is absolutely essential that taxation be based on some rule of apportionment that operates impartially and rests on fixed principles of justice. No doubt it is impossible to obtain absolute equality, but it is indispensable that some rule be adopted that approximates to that end. Without it, tax laws are partial and inequitable, producing inequality and flagrant injustice. It is therefore of the utmost importance, so far as human laws can devise, to equalize the burdens of taxation. This is the leading principle that should be kept steadily in view when tax laws are the subject of legislative consideration. One of the causes of inequality is the insufficiency of the law to secure the assessment of all classes of property. Where one class of property is taxed and another to any large extent allowed to escape, the burdens of government are not equally shared. The fundamental idea is that all property, movable and immovable, visible and invisible, should be assessed, to the end that they may bear their fair and just proportions of the tax necessary to be raised for the support of the government. Our constitution contemplates that both classes of property, real and personal, shall be assessed equally and according to their just valuation. It is thought that real estate—the lands and homes of our

people—contributes more than its just proportion of the taxes. The reason assigned is that some classes of personal property escape taxation through the insufficiency of our tax laws. It is believed that if our laws were competent to exact a truthful assessment of the value of personal property it would largely increase the amount of our taxable property, and render less burdensome the ownership of houses and lands. A law which so operates is partial and inequitable. The farms and homes of our people should not bear more than their just proportion of the public burdens.

We must all deplore a condition of things which permits a citizen paying a tax upon his home or farm to point to some neighbor, owning vastly more in personal goods and capital, who pays a much less amount of tax. It is idle to urge the difficulty of assessing some classes of property without making your law inquisitive. In the nature of things, all laws for the raising of revenue are more or less inquisitorial, but not necessarily to the extent of violating the principle of good neighborhood. Nor will laws devised to exact a truthful statement of a citizen's taxable property be so considered by those who recognize the duty they owe the government for its protection to their persons and property to bear their fair and just proportion of the public burdens; and as to those who, refusing to recognize such duty, shirk their portion of such burdens, and create the necessity for such laws, they constitute a class who have no claims upon your sympathy or consideration. The aim of the law should be to tax all property liable to taxation, of whatever nature and description, and in taxing it to observe the principle of uniformity of rate and uniformity in the valuation of the different classes of property. You should also carefully consider the laws relating to the taxation of all corporations doing business in this State, and ascertain whether they are bearing their fair and equal proportion of the public charges. The State affords them the benefit and protection of its laws, and the reciprocal duty should be devolved upon them of contributing their share to its support. Upon the same principle, residents of other States loaning money in this State should be required to pay taxes on the amount employed. It is not possible for me at this time to enter into consideration in detail of the wants of the people in this regard. I can only suggest some of the general principles which should control you in the consideration of the subject of taxation. The demand for a revision of our tax laws is urgent and widespread. You are here by the will of the people who have confided to you the sovereign power to tax—to take the citizen's property for governmental purposes. It is important that you should wisely exercise this power, aiming to avoid all inequalities, and to place

the burden of taxation so that it will bear, as nearly as possible, equally upon all.

THE PENITENTIARY.

Our penitentiary has been a serious charge upon the State. The law inflicts punishment upon the criminal to protect society and effect his reformation, and to deter others from the commission of crime. The punishment consists in confining him in the State penitentiary for a period of time proportionate to the enormity of his offense. When he has served his punishment, the public good requires that he shall return to society a better or reformed man. But the reformation of the criminal cannot be effected by his confinement alone. There must be, in addition, the influence of moral forces upon his character and regular employment upon his habits, to work his reformation. As a means to this end, systematic employment is regarded as one of the most humane as well as valued means of reform used in penal institutions. It is essential to the health of the convict, and is due the State as a recompense for his support. Any system of regular employment, therefore, which the State chooses to initiate that would tend to lighten the burden of his support, and make the prison in a measure self-sustaining, is a decided gain for the people, and likely to improve the health and benefit the habits of the convict. But experience has shown that it is extremely difficult to select an industry which will afford regular employment without bringing convict labor in competition with free labor. We know, as a matter of fact, that wherever the employment of convict labor has been brought in competition with free labor it has produced much dissatisfaction. It was in a measure the desire to avoid this result that induced the last legislature to make an appropriation for the erection and operation of a jute mill with convict labor. It was claimed that by this means the State could work its convict labor with profit in manufacturing articles at a low price, and largely in use by our farming class, and at the same time avoid competition with free labor.

In the neighboring States of California and Washington jute mills have been erected and operated for the past few years, but whether profitably or not I am not informed. But, since the appropriation has not been used for a jute mill, as the law contemplated, for reasons which will doubtless appear satisfactory to you, it is highly important, in view of the fact that jute goods are now on the free list by recent tariff legislation, to ascertain and determine whether the State will realize any profit or advantage by building and operating a jute mill with convict labor. It certainly is that the State does not want to engage in any doubtful experim

and, unless you think, after careful consideration, that the conditions are favorable to the operating of a jute-mill industry with convict labor, the proposed enterprise had better be abandoned and the money appropriated for this object be devoted to some other needful public purpose. It is never wise for a State to buy an enterprise which prudent men are anxious to get rid of. There is an impression among some of our people that the purchase of the foundry plant and its operation with convict labor has not been productive of profit or advantage to the State. The idea briefly is that "an elephant" was unloaded upon the State. I trust there is no foundation for such impression, but that facts will disclose that the foundry has been successfully and profitably operated, furnishing regular employment for the convicts, and making the penitentiary in a great measure a self-sustaining institution. It is your duty to ascertain what is the true state of the case in respect to these matters, so that you will be able to make such provision for, or disposition of these industries, proposed and contemplated, as may be of the highest advantage to the State and the best interests of the people. In this connection, I would suggest that you consider whether such a change in the present statutes is desirable as would enable the State to transport her own convicts from the jails to the penitentiary through her own agency connected with the penitentiary management. Under existing laws, the sheriffs deliver the convicts to the penitentiary authorities, and the cost for each convict brought to the prison is thought to be largely in excess of what it would cost for the warden to send a guard for such convicts. This method of conveying convicts to the penitentiary, and others based on similar suggestions, have been adopted in several States and resulted in benefit and advantage to the taxpayer.

ASYLUM FOR THE INSANE.

The duty of providing for the insane is a work of charity and benevolence which I commend to your generous consideration. The charity which takes care of this unfortunate class is a noble work and finds its source in the best impulses of our nature. It is a work which demands the highest intelligence and keenest sympathy to manage with efficiency and humanity. Whatever is necessary for their relief and comfort ought to be done promptly. The dictates of humanity and the honor of the State alike demand that none of these unfortunate ones should be uncared for. We have one institution at the capital, and another soon to be erected in Eastern Oregon, devoted to this noble work, which bespeak the generosity of our people and indicate that no sordid influences can

affect them when places for the comfortable care of these unfortunates are needed. A generosity which taxes itself to accomplish such objects ought not to be abused. It is believed, owing to the laxity of our laws, that many persons are sent to the asylum, and many remain there as its inmates, who are not proper subjects for its charity, and that, if the defects of our laws in these particulars were remedied, it would diminish the number of insane, so accounted, fully one-fifth, and greatly reduce the expenses of the institutions. Evils of this character are abuses of charity and ought to be promptly remedied. In this connection, I would also suggest that I think it would be to the interest of the State that the asylum, through her own agency, should be intrusted, wherever it can be done, with the transportation of insane persons. Besides the difference in expense, there is the further reason that a guard sent by the asylum would be much more expert in handling this unfortunate class, and therefore would often know how to spare them unnecessary physical pain and mental distress. I earnestly recommend these matters to your consideration.

MILITIA.

The protection of society demands that sufficient provision should be made for the suppression of mobs, riots, and other disorders which are beyond the power of the civil authorities to control. Experience has demonstrated that when such uprisings or internal disorders occur, endangering the life and property of citizens, the prompt use of organized military force is the most effective way to suppress them and restore order. In fact, there is no better way to secure obedience and respect for the laws than always to possess the power to enforce them. For these reasons, it is important to have sufficient military organization, well armed and equipped, and under proper discipline, to assist the civil authorities in the enforcement of the laws in case any crisis or emergency should arise which is beyond their power to control. But the military organization should not be so extensive as to require large expenditure of the public money. There is no actual necessity for a large organization. Our people are law-abiding and respect the individual rights of others. They are not of the sort who are prone to riotous conduct or disposed to do violence to the person and property of others. I do not think, therefore, that any large military organization ought to be kept up, or so large as is now maintained; it would be sufficient to have a military organization of several companies, which, properly distributed over the State, would answer every exigency. It gives me pleasure to say that, so far as

my observation has extended, our companies are composed of brave and patriotic young men who are engaged in peaceful pursuits in civil life, and who are loyal to our State and its laws, our country and its flag.

EDUCATION.

The general diffusion of knowledge furnishes the best guarantee for the strength and stability of the State. Popular education is closely allied to popular liberty. No State can afford to neglect the educational interests of its children. It should give them all an opportunity, at the public expense, to enjoy such educational facilities and advantages as will enable them to become fairly intelligent citizens. But it is evident that those who are to teach children should possess the special training that qualifies them for the work. To obtain expert teachers, it is necessary to have schools for their education. With this end in view, our normal schools were established. I take it that they are fulfilling the purposes for which they were designed, and are in good condition and constantly increasing in efficiency. So, too, it is my opinion that the State university and the agricultural college are performing efficiently and acceptably their share in the educational system of the State. Under the able management of their presidents, aided by their corps of accomplished professors, these institutions, in the line of their educational work, ought to become valuable aids in the development of the State, and the advancement of knowledge and intelligence. The schools for the blind and the deaf and dumb are performing an important work, and are deserving of your fostering care. But, in respect to these educational institutions of whatever description, I feel bound to say that, in view of the large amount of money which the State has invested in their grounds and buildings, and the large amount which is required for their support, it is due the taxpayer that they be managed with strict economy, and their expenses be reduced to the lowest possible limit, not incompatible with their efficiency and usefulness. Upon this basis, I recommend whatever appropriations may be found necessary for their support. This recommendation, of course, includes the idea that every institution should show satisfactorily to you what are its needs for efficient work, and excludes the idea that any institution should have a fixed sum provided by law, as in that case there is always a tendency to consume the appropriation, whether the whole is needed or not, rather than allow any part of it to return to the treasury by operation of law. Every law of this character, if there be any such, ought to be promptly repealed, leaving the appropriation for all institutions to be based on an estimate satisfactorily shown to be

needful for its wants and efficiency. As to the reform school, I have little data upon which to found an opinion. The buildings and outbuildings are new, and sufficient for present purposes. No additional cost of this kind need be incurred. It would seem that this institution, with the labor force at its disposal among its inmates, and the large acreage attached to it, under careful and economical management ought to be made nearly self-sustaining. Certainly the sum needed for its support for the ensuing two years ought not to be large.

PUBLIC ROADS.

There is no subject of equal importance upon which the public mind is more unanimous than the advantage to be derived from good roads. The subject of economical road-making has been much studied, largely discussed by the press and in road conventions. Every one understands that the State cannot be built up and its lands made valuable, without good roads are constructed. But how to do it without involving too great an expense is the difficult problem. Various systems have been devised with varying degrees of merit, but they all include a measure of expense that makes it difficult for the younger States, like our own, to construct them in a satisfactory manner without entailing too heavy taxation upon property holders. This consideration, though, ought not to discourage us from ascertaining the condition of our roads and the best methods of constructing and improving them. Our State is in great need of good roads. Where the cost of them is reasonable there can be no better investment. Good roads facilitate intercourse and develop trade, promote health, and add greatly to the enjoyment of life, enhance the value of farms, and make markets accessible for the sale of their products, spare beasts of burden and save the wear and tear of wagon and harness. It is greatly to be desired that some economical plan may be devised to secure good roads, so that our communities may be enabled to enjoy their advantages. There is no doubt that our road laws have failed to accomplish, in a satisfactory manner, the object of their enactment. The system created by them is defective and needs thorough revision. I own I have no plan for correcting their defects, but I suggest to you, who are intelligent men of experience in practical affairs, to take the matter into consideration and endeavor to evolve some system which shall remedy their defects and secure better roads for the traveling public. As the question of good roads is a matter now much discussed, you can acquire much useful information in regard to them through pamphlets which have been published and circulated with the view of suggesting the best method of improving and building good roads.

IRRIGATION.

There will probably be submitted for your consideration a bill, designed to enable our State to take advantage of a law known as the Carey law, which gives to those States having large tracts of arid lands, a million of such acres on the condition of reclaiming them by irrigation. Our State is included among those entitled to avail themselves of its provisions. This is a highly important subject to Eastern Oregon, where there are large quantities of arid lands and where there are mountain ravines in which water may be stored by dams for irrigating and making them productive and valuable. In this way, large tracts of arid lands may be reclaimed for the uses of civilization and become the happy abodes of industry and contentment. I commend the subject to your careful and intelligent consideration.

SALMON FISHERIES.

Our salmon fisheries, being one of our leading industries, are the source of great revenue and give employment to many men. Salmon fish, when prepared for market, constitute one of the principal exports of the State, and are an important part of its commerce. The necessity of proper regulations for salmon fishing, to preserve them from destruction, and to protect our future supply, is too manifest to require discussion. Whatever further regulations in this behalf are necessary ought to be established by the legislature and enforced by the courts. We cannot too vigilantly guard our salmon interests from destruction. The lesson taught by the history of other States, where they once abounded but have now disappeared, emphasizes the necessity of such regulations for their preservation and propagation. One of the means to preserve salmon and obviate their decrease on account of the catch, is their artificial propagation, but I understand that some legislation is required on the part of the State to enable it to avail itself of the benefits to be derived under the regulations prescribed by the United States statutes for fish culture. Whatever legislation in this regard may be needed for the propagation and preservation of salmon should be enacted.

LABOR.

It is indispensable to the peace of society and the welfare of the people that the relation between those who perform manual labor and those who employ it shall be harmonious and satisfactory. But to secure this condition of feeling between them, the relation must be founded on recognized principles of justice, mutually con-

tributing to the advantage and protection of each other. Both employer and employé have rights that must be respected and defended from the unjust demands and encroachments of the other. Neither can disregard the conditions essential to preserve harmony and good will between them without exposing society to disturbances and disastrous conflicts, endangering life and property. It is gratifying to know that our State has been free from the turbulence and disorder which has been so common in some of the other States, and that our exemption is due to the intelligence and orderly character of our industrial classes. It is a duty we owe them to look steadily after the conditions which injuriously affect their employment and welfare. In my judgment, one of the greatest dangers that menaces honest labor is the indiscriminate immigration now inundating our country. To the poor and oppressed of other lands our country offers an asylum, but this invitation does not include the corrupt and vicious, the paupers and the criminal classes, nor those—worse still—who use its freedom to work its destruction. We cannot afford that our country shall be the dumping ground for the degraded and socialistic classes of other nations. This evil is upon us, and unless remedied sooner or later, we shall feel its contaminating influence upon our national life in disturbing the conditions that surround labor and that are essential to its independence and prosperity, and in endangering the health and safety of the people and the welfare of the republic. The people ought to make themselves heard upon this subject in tones so distinct as to cause their representatives to heed their demand for legislation which shall exclude from our shores this vicious and dangerous class of immigration.

SUPREME COURT.

A delay of justice often operates as a denial of justice. The bill of rights in our constitution declares that "justice shall be administered openly and without purchase, completely and without delay." The business of the supreme court is increasing so rapidly that it will soon become impossible for the judges to keep pace with it, and properly perform their duties. With the aid of their efficient stenographer, they have kept the work from accumulating rapidly as it otherwise would, and are now only behind in hearing of cases some two or three months. But in the natural things, it cannot be long before their docket will be crowded with cases, causing much delay, vexation, and expense, before their adjudication. In anticipation of this condition of things, an act was passed by the last legislature which will be subse-

you, proposing an increase of two in the number of supreme judges. Upon this proposed amendment I shall leave you to act as your best judgment dictates. What I wish to suggest is that in my opinion appeals in civil cases might be considerably limited, and the business of the court largely decreased, by granting them only where the judgment rendered exceeds two hundred and fifty dollars, unless such judgment involves matters affecting lands, public revenue, or the construction of the constitution of the State and the United States. Upon examination, I think it will be found that a large number of cases involve sums of less than two hundred and fifty dollars, and in many instances, the object in appealing these cases is to obtain delay, or to gratify a bad feeling between the parties litigant. I am aware of the objection usually urged against such a law, namely, that every citizen should have the right of appeal, no matter how small the sum, otherwise its effect would be to discriminate against citizens of small means. On the other hand, many good citizens suffer injustice and wrong rather than submit to the long, expensive and vexatious delays which usually attend a resort to the appellate court for redress.

Possibly some other remedy may be devised to correct this evil, but the necessity that relief should be afforded the court, and a prompt hearing and adjudication of causes be obtained, is imperative. The judges now are the hardest working officials in any department of State. Their duties comprise grave responsibilities and interests of the highest conceivable character. Life, liberty, reputation, and property are intrusted to their judgment, and rest upon their decision. They are, as your judges should be, men of ability and learning, wise in judgment, upright in character, firm and courageous in spirit, who will render their judgments uninfluenced by the voice of popular clamor and unintimidated by threats of political vengeance. Having such judges, it is your duty to afford them relief, and make sure reasonable compensation for their services. Their salary ought not to be reduced. Salaries should be commensurate with the duties, dignities, and responsibilities of the office to which they are attached. None should be so high that fortunes can be made from them, or so low that, with frugality, they are without pecuniary benefit. There are some officials, such as those composing the railroad commission, whose salaries could be reduced one third, and still be reasonable compensation for efficient services. The railroad commission, where it fulfills the purpose of its creation, is a useful body, and a benefit to the people, though I think one commissioner and his clerk are all that are needed.

OFFICES SHOULD BE FILLED BY THE PEOPLE OR THEIR EXECUTIVE.

The mode of selecting railway commissioners, as some other officers, by the legislature, is wrong and of doubtful validity, although sanctioned by custom and sustained by some judicial precedents. The power to appoint to an office ought to be lodged in the people or their executive. Such a power is not legislative, nor should it be exercised by the legislature except in the appointment of officers for its own body. Every statute which vests such power in the legislature ought to be amended in this regard, and lodged in the people or their executive. Such a change is needed in our statutes to save your valuable time for legislative service, to do away with trades and combinations to advance political fortunes, and to put an end to the disgraceful scenes that sometimes characterize the scramble for legislative appointments to office.

PUBLIC PRINTING.

The public printing is swelled much beyond the needs of the public service, and ought to be largely diminished. Some of it is in form of tables more open than similar printing for private citizens, and part of it is not only of no public interest, but is of no public concern, consisting in some instances of mere printed blank forms that are of no more use than so many blank pages, except to count as an extravagant public expenditure. This is a serious injustice to those who foot the bills. The law authorizing public printing is too lax. You ought to investigate it thoroughly, for the purpose of ascertaining the nature and extent of its defects with a view of remedying it.

MARRIAGE AND DIVORCE.

The national reform league is engaged in a movement to secure uniformity in the law governing marriage and divorce. This is an important subject, vitally affecting the interests of domestic life, and the welfare of the people, and is worthy of your attentive consideration. I would suggest that you appoint a committee without pay to examine into the merits of the subject and report the result of its deliberations to the next legislature.

REDEMPTION FROM FORCED SALES.

Your attention is also directed to the necessity of extending the time for the redemption of realty sold at judicial sales. Owing to

the financial depression and the depreciation in value of land and its products, forced sales at this time are relatively confiscatory.

BANK INSPECTION.

There is also some demand for legislation in respect to the inspection of banks, with a view of guarding the interests of those depositing money and doing business with them. It is claimed that some of the heavy losses, public and private which occurred lately, owing to the suspension or failure of some of our banks, would have been averted if such a law had been in force and operation. As practical business men, acquainted with the wants of the communities which you represent, I submit the desirability of this demand to your intelligent consideration.

APPROPRIATION BILLS.

Bills for the appropriation of the public moneys ought to be submitted to you early in the session so as to afford opportunity for the members to carefully examine and pass upon them, and not be left to the hurried consideration that marks the closing scenes. The custom of including in one bill appropriations of the public moneys for every conceivable purpose, general and special, is thoroughly vicious, and ought not to be countenanced. There are certain fixed charges and liabilities for the support of the State government for which specific appropriations might be embodied in one bill, but in all other cases the bill ought not to include appropriations for more than one object. In other words, no bill appropriating public revenue, except as stated, should contain an appropriation for more than one object. By adopting this method, every appropriation must stand or fall upon its own merits; there will be afforded the executive an opportunity to interpose any objection that he may have to the appropriation without delaying the passage of appropriations that are unobjectionable or meritorious, and thus put in practice that wise principle incorporated in the constitutions of some States, which allows the executive to veto single items or appropriations in a general appropriation bill.

The rule that every measure should stand on its own merits is too apparent for discussion, but in no case is the reason for its application more manifest than in the consideration of bills appropriating the public revenue to be raised by taxation. Under the practice which has prevailed in this State of including in one bill appropriations for every conceivable public purpose and delaying its introduction until the end of the session, when there is no time

for the members to examine it carefully, or the executive to exercise his power of veto without defeating appropriations contained therein needed for the public service, lavish and unnecessary appropriations have been secured, and the interests of the people disregarded. Experience has demonstrated in this State the embarrassment that is occasioned by the adjournment of the legislature without making needed appropriations for the support of the State, but these are ills which we had better bear, or the expense of reconvening the legislature, than that the executive should feel compelled to approve a general appropriation bill that bears the mark of having been railroaded through the legislature during its expiring hours to avoid examination and discussion so as to secure some needless, extravagant, and objectionable appropriation of the public moneys.

CONCLUSION.

In entering upon the performance of the duties to which we have been called, as the trusted agents of the people, we must not be unmindful of their wants and interests. We owe them a conscientious performance of duty and we must fulfill our obligation. That obligation requires us to lighten the burden of taxation wherever it can be effected without detriment to the public service. As a means to this end, the people demand that we exercise the same care and economy to avoid extravagance and needless public expenditures in the conduct of the public business as govern prudent men in the management of their private affairs. The conditions that surround them emphasize the necessity for the practice of public and private economy, for the reform of any wasteful habits or practices, and for diminishing the public expenditures and reducing taxation. To effect these reforms, lavish and unnecessary appropriations of the public money must not be countenanced or tolerated; for these always put an unjust burden on the backs of the people, tend to check industrial activity and business enterprise, and serve to retard the general growth and development of the State.

Gentlemen, we cannot overestimate the responsibilities of our positions. Our oaths will not rest lightly on our consciences if we neglect our duty or abuse our trust. We are brought together by a majority larger than the people ever before accorded to their representatives. To that extent it emphasizes more strongly our duty to redeem our pledges for retrenchment and reform. Let us all, without distinction of party, join in a common purpose to faithfully serve the State and advance the interests of its people. Let us co-operate in showing to them our sense of obligation and appreciation

of the generous confidence reposed in us by jealously guarding the public revenues, and withholding our sanction from any appropriation of them except for the public good,—by reforming abuses which custom or bad laws have fastened on the body politic,—by practicing a rigorous economy in the management of public affairs,—by reducing State taxation to the lowest possible limit consistent with a wise and economical administration of the public business,—by abolishing useless offices and discontinuing the employment of supernumeraries in the public service,—by enacting laws designed to advance the public welfare and repealing those which conflict with the interests of the people,—and by devoting our best energies and abilities to the advancement and prosperity of the State.

WM. P. LORD, Governor.
